MAR 20 2008

Dear Ms. Griffin:

Subject: Labeling Amendment; Revised Directions for Use
Sweeney's Poison Peanuts Mole & Gopher Bait II
EPA Registration No. 149-16
Date Submitted: March 20, 2008

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable with the following provision:

1. Within the **DIRECTIONS FOR USE** section of the label, revise the sentence "*For use against moles and pocket gophers in lawns and other areas around the home where food and feed may not be contaminated with soil.*" to read "*For use against moles and pocket gophers in lawns and other areas around the home where food and feed will not be contaminated with soil.*"

A stamped copy is enclosed for your records. Please submit one (1) final printed copy for the referenced label, incorporating the above changes, before releasing the product for shipment. If you have any questions regarding this letter, please contact me at (703) 306-0415.

Sincerely,

A handwritten signature in black ink, appearing to read "Kable Bo Davis", written over a horizontal line.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals
CAUTION: May be harmful if swallowed or inhaled. Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Wash hands after use. Avoid contamination of feed or foodstuffs. Avoid contact with acids. **KEEP AWAY FROM CHILDREN, PETS AND DOMESTIC ANIMALS.**

ENVIRONMENTAL HAZARDS: This product is toxic to fish, birds, and other wildlife. Do not apply directly to water, or to areas where surface water is present or to potential areas below the main high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes.

FIRST AID: Any person applying zinc phosphide products and experiencing signs and symptoms such as nausea, abdominal pain, tightness in the chest, or weakness, should be seen by a doctor immediately. If SWALLOWED: Immediately call a Poison Control Center or doctor, or transport the patient to the nearest hospital. **DO NOT DRINK WATER** unless advised to do so by a doctor.

Do not administer anything by mouth or make the patient vomit unless advised to do so by a doctor. If SWALLOWED: Immediately call a Poison Control Center or doctor, or transport the patient to the nearest hospital. **DO NOT DRINK WATER** unless advised to do so by a doctor.

IF UNHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes, including contact lenses, if present, after the first 5 minutes. Then continue rinsing eye. Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing eye. Call a poison control center or doctor for treatment advice. For information on this pesticide product, Pesticide Telecommunications Network 800-858-7378, seven days a week, 6:30 am to 4:30 pm Pacific Time.

HOT LINE NUMBER: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information on this pesticide product, Pesticide Telecommunications Network 800-858-7378, seven days a week, 6:30 am to 4:30 pm Pacific Time.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. **STORAGE:** Store only in original container, in a dry place inaccessible to children, pets and domestic animals. **IF EMPTY:** Do not reuse this container. Place in trash or other for recycling if available. **IF PARTIALLY FILLED:** Call your local solid waste agency for disposal instructions. Never place unused product down any intake or outdoor drain.

*Not for mole use in CA or HI.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: THIS PRODUCT IS FOR SUBTERRANEAN USE ONLY. For use against moles and pocket gophers in lawns and other areas around the house where food and feed may not be contaminated with soil. **DO NOT PLACE IN AREAS ACCESSIBLE TO CHILDREN AND PETS.** Only apply the bait underground. Collect and bury all dead animals found above the ground. **DO NOT APPLY THIS PRODUCT BY USE OF A MECHANICAL BURROW BUILDER.**

SPECIFIC DIRECTIONS FOR MOLES* (Eutamias septentrionalis)
The presence of moles may be indicated by a network of surface ridges in the turf, by a series of conical mounds of earth pushed up from deep burrows or by damage to tubs.

SURFACE RIDGES: Prior to treatment, determine which burrows are active according to one of the following two methods. Either press down a small section of the tunnel or remove a one inch section of the tunnel's roof. Mark these sections and reembed in 24 hours. The burrow is considered active if the flattened tunnel has been raised up or if the root has been repaired. Only treat active burrows. Carefully punch a hole in the top of active tunnels with pointed end of cone. Insert a teaspoonful spoon, carefully remove the plug. After a few days, check to see if the burrows are still active according to one of the two methods described above. If so, repeat treatment.

CONICAL MOUNDS: Remove center plug from the conical mounds with the aid of a long-handled spoon and drop a teaspoonful amount of this product into the underground tunnel. Close opening with rock or soil. Do not allow loose dirt to cover bait.

SPECIFIC DIRECTIONS FOR POCKET GOPHERS: Burrowing pocket gophers (Thomomys spp. and Geomys spp.) throw out the low fan shaped mounds on either side of their underground tunnel. These lateral tunnels coming to the surface are on the flat side of the fan and are plugged with soil. With a long-handled spoon, carefully remove the plug. Insert a teaspoonful amount as far down as possible. Reclose opening being careful not to cover bait with soil.

*Not for mole use in CA or TX.
