JAN 3 - 2011

Subject: Application for Pesticide Notification (PRN 98-10)  
Sweeney's Poison Peanuts Mole & Gopher Bait II  
EPA Reg. No. 149-16  
Application Dated December 13, 2010

Dear Ms. Griffin;

The Agency is in receipt of your filing of a revised Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please call me directly at 703-305-6736 or electronically at [Edwards.joanne@epa.gov](mailto:Edwards.joanne@epa.gov).

Sincerely,

A handwritten signature in black ink that reads "Joanne S. Edwards".

Joanne S. Edwards

**RE: Notification per PR Notice 2007-4 to update container language in the Storage and Disposal section**  
**Product: Sweeney's Poison Peanuts Mole & Gopher Bait II**  
**EPA Reg. No.: 149-16**  
**Company: Senoret Chemical Company, Inc.**

Dear Ms. Edwards:

On behalf of Senoret Chemical Company, Inc., I am submitting a notification per PR Notice 2007-4 to update the container language in the Storage and Disposal section for the product Sweeney's Poison Peanuts Mole & Gopher Bait II, EPA Reg. No. 149-16. The language is consistent with PR Notice 2007-4. This label is Residential Use only so the container rule language for Household Use has been used. There are no other changes to this label.

This is as per our e-mail discussion of December 3, 2010, in which you asked me to e-mail a clean pdf of the above named label and the application form to complete the notification. We had submitted the container rule modification in March, but inadvertently it was not included in the labeling approved for the Reregistration. This now supersedes the previous notification request.

Enclosures

- EPA form 8570-1
- 1 copy of the label marked to show changes

If you have any questions regarding this submission, please contact me at 301-680-7971 or [cgriffin@delta-ac.com](mailto:cgriffin@delta-ac.com).

Sincerely,  
  
 Cristina Griffin  
 Agent for Senoret Chemical Company, Inc

**PRECAUTIONARY STATEMENTS**  
**Hazard to Humans & Domestic Animals**

**CAUTION:** Harmful if swallowed, absorbed through the skin, or inhaled. Avoid contact with eyes, skin, or clothing. Avoid breathing dust. Keep away from children, pets and domestic animals. Any person who retrieves carcasses or unused bait following application of this product must wear waterproof gloves.

<b>FIRST AID</b>	
Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may call a poison control center (1-800-222-1222) for emergency medical treatment information. If you experience signs and symptoms such as nausea, abdominal pain, tightness in chest, or weakness, see a physician immediately. For information on pesticide products (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.	
If swallowed:	<ul style="list-style-type: none"> <li>• Call a poison control center or doctor immediately for treatment advice or transport the patient to the nearest hospital.</li> <li>• Do not induce vomiting unless told to by a poison control center or doctor.</li> <li>• Do not give any liquid to the person.</li> <li>• Do not give anything by mouth to an unconscious person.</li> </ul>
If in eyes:	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li> <li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
If on skin or clothing:	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
If inhaled:	<ul style="list-style-type: none"> <li>• Move person to fresh air.</li> <li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>

**TREATMENT FOR PET POISONING**

If animal eats bait, call veterinarian at once.

**NOTE TO PHYSICIAN OR VETERINARIAN**

Contains the phosphine-producing active, Zinc Phosphide. Probable mucosal damage may contraindicate the use of gastric lavage. For animals ingesting bait and/or showing poisoning signs, induce vomiting by using hydrogen peroxide. Sodium bicarbonate can be given orally to neutralize the stomach acidity. The stomach and intestinal tract can be evacuated, oxygen administered and cardiac and circulatory stimulants given.

**Environmental Hazards**

This product is extremely toxic to mammals, birds, fish, and other wildlife. Wildlife feeding on treated bait may be killed. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**USE RESTRICTIONS:** This product may only be applied against the pests listed on this label, at the use sites and by the application methods indicated on this label. This product may only be used to control pocket gophers and moles in manual, below-ground applications in lawns. Do not apply in gardens and areas where food or feed may become contaminated. **DO NOT PLACE IN AREAS ACCESSIBLE TO CHILDREN AND PETS. DO NOT APPLY THIS PRODUCT BY USE OF A MECHANICAL BURROW BUILDER.** Not to be sold in individual containers containing more than 1 pound of product.

**SPECIFIC DIRECTIONS FOR MOLES\* (Scalopus aquaticus):** The presence of moles may be indicated by a network of surface ridges in the turf, by a series of conical mounds of earth pushed up from deep burrows.

**SURFACE RIDGES:** Prior to treatment, determine which burrows are active according to one of the following two methods. Either press down a small section of the tunnel or remove a one inch section of the tunnel's roof. Mark these sections and recheck in 24-hours. The burrow is considered active if the flattened runway has been raised up or if the roof has been repaired. Only treat active burrows. Carefully punch a hole in the top of active tunnels with pointed end of cone, drop in a teaspoonful and carefully close the hole with sod or stone. Do not collapse the runway again or allow loose soil to cover the bait. After a few days, check to see if the burrows are still active according to one of the two methods described above. If so, repeat treatment.

**CONICAL MOUNDS:** Remove center plug from the conical mounds with the aid of a long-handled spoon and drop a teaspoonful amount of this product into the underground tunnel. Close opening with rock or sod. Do not allow loose dirt to cover bait.

**SPECIFIC DIRECTIONS FOR POCKET GOPHERS:** Burrowing pocket gophers (*Thomomys* spp. and *Goemys* spp.) throw out low fan shaped mounds on either side of their underground tunnel. These lateral tunnels coming to the surface are on the flat side of the fan and are plugged with soil. With a long-handled spoon, carefully remove the plug. Insert a teaspoonful amount as far down as possible. Reclose opening being careful not to cover bait with soil.

**MAIN RUNWAY BAITING:** To locate main runways, probe about 6 to 8 inches away from mounds by use of an iron bar, a strong stick, or other suitable implement. Resistance on probe will drop suddenly and probe will fall about two inches when main runway is entered. Carefully enlarge the opening to accommodate insertion of the bait. Insert one teaspoon of bait into each active tunnel. Carefully close the hole with a stone, sod, or soil. Take care not to cover bait with soil.

**FOLLOW-UP:** Wearing waterproof gloves, collect and dispose of dead, exposed animals. Dispose of leftover bait in accordance with disposal instructions. Use detergent and hot water to wash spoons used for application into burrows. Do not use spoon for mixing, holding or transferring food or feed. If reinfestation does occur, repeat treatment.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Store only in original container, in a dry place inaccessible to children, pets and domestic animals.

**PESTICIDE DISPOSAL AND CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container.

**If empty:** Offer for recycling if available or place in trash. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

\*Not for mole use in CA or IN.
