Subject: Notification of Alternate Brand Names for Sweeney's[®] Poison Peanuts Mole & Gopher Bait II
ABN: Poison Peanuts Pellets Gopher Bait
Kill Moles & Gophers
Kill Gophers (for printed label with gopher uses only)
EPA Reg. No. 149-16

Dear Ms. Griffin:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated November 22, 2011 for the product Sweeney's[®] Poison Peanuts Mole & Gopher Bait II. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action(s) requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please call me directly at 703-305-5967 or e-mail me at gaines.jennifer@epa.gov.

Sincerely,

A handwritten signature in cursive script that reads "Jennifer Gaines".

Application for Pesticide - Section I

1. Company/Product Number **149-16**

2. EPA Product Manager
John Hebert

3. Proposed Classification

None Restricted

4. Company/Product (Name) **Senoret Chemical Company, Inc. / Sweeney's® Poison Peanuts Mole & Gopher Bait II**

PM# **7**

5. Name and Address of Applicant (Include ZIP Code)
**Senoret Chemical Company, Inc.
c/o Delta Analytical Corp.
12510 Prosperity Drive, Suite 160
Silver Spring, MD 20904**

Check if this is a new address

6. **Expedited Review.** In accordance with FIFRA Section 3(c)(3)(b)(i), my product is similar or identical in composition and labeling to:

EPA Reg. No. _____ **DEC 22 2011**

Product Name _____

Section - II

Amendment - Explain below
 Resubmission in response to Agency letter dated _____
 Notification - Explain below.

Final printed labels in response to Agency letter dated _____
 "Me Too" Application.
 Other - explain below.

Explanation: Use additional page(s) if necessary. (For section I and Section II.)

**Notification per PR Notice 98-10 to add 3 Alternate Brand Names:
Poison Peanuts Pellets Gopher Bait; Kill Moles & Gophers; Kill Gophers**

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Section - III

1. Material this Product will be Packaged in:

Child-Resistant Packaging
 Yes*
 No

Unit Packaging
 Yes
 No

Water Soluble Packaging

PRECAUTIONARY STATEMENTS
Hazard to Humans & Domestic Animals

CAUTION: Harmful if swallowed, absorbed through the skin, or inhaled. Avoid contact with eyes, skin, or clothing. Avoid breathing dust. Keep away from children, pets and domestic animals. Any person who retrieves carcasses or unused bait following application of this product must wear waterproof gloves.

FIRST AID	
Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may call a poison control center (1-800-222-1222) for emergency medical treatment information. If you experience signs and symptoms such as nausea, abdominal pain, tightness in chest, or weakness, see a physician immediately. For information on pesticide products (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378.	
If swallowed:	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice or transport the patient to the nearest hospital. • Do not induce vomiting unless told to by a poison control center or doctor. • Do not give any liquid to the person. • Do not give anything by mouth to an unconscious person.
If in eyes:	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If on skin or clothing:	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If inhaled:	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. • Call a poison control center or doctor for treatment advice.

TREATMENT FOR PET POISONING

If animal eats bait, call veterinarian at once.

NOTE TO PHYSICIAN OR VETERINARIAN

Contains the phosphine-producing active, Zinc Phosphide. Probable mucosal damage may contraindicate the use of gastric lavage. For animals ingesting bait and/or showing poisoning signs, induce vomiting by using hydrogen peroxide. Sodium bicarbonate can be given orally to neutralize the stomach acidity. The stomach and intestinal tract can be evacuated, oxygen administered and cardiac and circulatory stimulants given.

Environmental Hazards

This product is extremely toxic to mammals, birds, fish, and other wildlife. Wildlife feeding on treated bait may be killed. Dogs, cats and other predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten this bait. Do not apply directly to water.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: This product may only be applied against the pests listed on this label, at the use sites and by the application methods indicated on this label. This product may only be used to control pocket gophers and moles in manual, below-ground applications in lawns. Do not apply in gardens and areas where food or feed may become contaminated. **DO NOT PLACE IN AREAS ACCESSIBLE TO CHILDREN AND PETS. DO NOT APPLY THIS PRODUCT BY USE OF A MECHANICAL BURROW BUILDER.** Not to be sold in individual containers containing more than 1 pound of product.

SPECIFIC DIRECTIONS FOR MOLES* (Scalopus aquaticus): The presence of moles may be indicated by a network of surface ridges in the turf, by a series of conical mounds of earth pushed up from deep burrows.

SURFACE RIDGES: Prior to treatment, determine which burrows are active according to one of the following two methods. Either press down a small section of the tunnel or remove a one inch section of the tunnel's roof. Mark these sections and recheck in 24-hours. The burrow is considered active if the flattened runway has been raised up or if the roof has been repaired. Only treat active burrows. Carefully punch a hole in the top of active tunnels with pointed end of cone, drop in a teaspoonful and carefully close the hole with sod or stone. Do not collapse the runway again or allow loose soil to cover the bait. After a few days, check to see if the burrows are still active according to one of the two methods described above. If so, repeat treatment.

CONICAL MOUNDS: Remove center plug from the conical mounds with the aid of a long-handled spoon and drop a teaspoonful amount of this product into the underground tunnel. Close opening with rock or sod. Do not allow loose dirt to cover bait.

SPECIFIC DIRECTIONS FOR POCKET GOPHERS: Burrowing pocket gophers (*Thomomys* spp. and *Geomys* spp.) throw out low fan shaped mounds on either side of their underground tunnel. These lateral tunnels coming to the surface are on the flat side of the fan and are plugged with soil. With a long-handled spoon, carefully remove the plug. Insert a teaspoonful amount as far down as possible. Reclose opening being careful not to cover bait with soil.

MAIN RUNWAY BAITING: To locate main runways, probe about 6 to 8 inches away from mounds by use of an iron bar, a strong stick, or other suitable implement. Resistance on probe will drop suddenly and probe will fall about two inches when main runway is entered. Carefully enlarge the opening to accommodate insertion of the bait. Insert one teaspoon of bait into each active tunnel. Carefully close the hole with a stone, sod, or soil. Take care not to cover bait with soil.

FOLLOW-UP: Wearing waterproof gloves, collect and dispose of dead, exposed animals. Dispose of leftover bait in accordance with disposal instructions. Use detergent and hot water to wash spoons used for application into burrows. Do not use spoon for mixing, holding or transferring food or feed. If reinfestation does occur, repeat treatment.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store only in original container, in a dry place inaccessible to children, pets and domestic animals.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container.

If empty: Offer for recycling if available or place in trash. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

*Not for mole use in CA or IN.
