2461 S Clark St. Suite 710
Arlington, VA 22202

Subject: Notification per PRN 98-10 – Adding a prop 65 statement
Product Name: Terro RBS
EPA Registration Number: 149-24
Application Date: 21 July 2021
Decision Number: 578321

Dear Ms. Anastasiou:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10. The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, you may contact please contact Andrés Garzón at (703) 347-8547 or by email at GarzonMoreno.Andres@epa.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Gene Benbow".

Gene Benbow, Product Manager 7
Invertebrate & Vertebrate Branch 3
Registration Division (7505P)

NET CONTENTS:

[] Bait Stations [] oz. ([] g) / [] oz. ([] g) each]

[MASTER LABEL – BACK PANEL PAGE 1 OF 2]

FIRST AID	
If In Eyes:	<ul style="list-style-type: none">- Hold eye open and rinse slowly and gently with water for 15-20 minutes.- Remove contact lenses, if present, after the first five minutes, then continue rinsing eye.- Call a poison control center or doctor for treatment advice.
Have the product or label with you when calling a Poison Control Center or doctor or going for treatment. In case of emergency, for additional information call 800 858 7378.	

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after use and before eating, drinking, chewing gum, using tobacco, or using the toilet.

ENVIRONMENTAL HAZARDS

To protect the environment, do not allow bait to enter or run off into storm drains, drainage ditches, gutters or surface waters.

[HOW IT WORKS]

[TERRO® RBS is [a] [an] [ready] [easy]-to-use, [pre-filled], bait station. [Roaches] [,Ants*] [and] [silverfish] will enter the [ready] [easy-to-use] [pre-filled] station to feed on the bait. Included [removable] adhesive [strips] [tape] allow(s) for [discreet], multi-surface application. Bait stations may be applied to indoor vertical surfaces, [[including cabinet sides and interiors, cabinet toe kicks, baseboards, walls] cabinet overhangs or placed directly on floors or counters.]]

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DO NOT USE in edible product areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. Avoid contamination of feed and foodstuffs. Do not use adhesive application [strips] [tape] on delicate surfaces such as unpainted walls, wallpaper or wood furniture finishes. Do not place stations on hot [vertical] surfaces that could soften bait and allow it to run out of station. Do not use insect killing sprays on or near bait stations or place stations where insect killing sprays have been sprayed as they may repel pests from feeding. Do not place bait stations in areas accessible to children and pets.

FOR USE IN AND AROUND: Homes, Hospitals, Restaurants, Apartments, Grocery Stores, Institutional Buildings, Schools, Cafeterias, Warehouses, Storage Areas, Food Processing Plants, Mobile Homes, Boats, Military Bases, Theaters, Nursing Homes, and on Military, Commercial, and Cruise Ships.

ATTRACTS AND KILLS: [Listed common household pests] [Listed pests] [Listed insects] [including]: **[Roaches] [Ants:** Acrobat, Allegheny, Argentine, Big headed, Cornfield, Crazy, Ghost, Little black, Odorous house, Pavement, Pharaoh, Pyramid, Thief, White footed, and other sweet eating ants* (except fire ants, carpenter ants, and harvester ants);] **[Others:** [Ants,] Silverfish.]

USING TERRO® RBS: Remove other sources of food, like crumbs, sugar, and grease spots. Common areas to place bait stations include along baseboards, in corners of rooms, under or inside cabinets, on countertops, under and behind appliances, under sinks, around pipes and water sources, in pantry, on window sills and around doorways, near garbage cans, and along pest trails.

Product Application:

1. For [adhesive] [discreet] [placement] [applications], apply included [removable] adhesive [strip] [tape] to [back] [bottom] of station [between adhesive [strip] [tape] placement guides] [with (labeled) (printed) (removable) (removable labeled) (wall) side of adhesive facing out]. Press and hold [adhesive] [strip] [tape] firmly to station for 10 seconds [to ensure proper adhesion]. [For non-adhesive application, skip to step 3.]

[Note: Only (side) (printed) (labeled) (side of adhesive) (as removable) (side of adhesive) (strip) (tape) is removable.]

2. Remove [remaining] [labeled] [printed] [removable side] [wall side] [adhesive] strip [liner] [paper backing].
3. Apply/place bait stations close to where [roaches] [ants] [listed pests] are [traveling] [present]. For adhesive [applications] [placements], [carefully] press and hold station firmly against surface for 10 seconds [to ensure proper adhesion]. [Roaches] [Ants] [Listed pests] will enter the bait station through the side [openings] [entrances].

[MASTER LABEL – BACK PANEL PAGE 2 OF 2]

4. Place additional bait stations anywhere [roaches] [ants] [listed pests] [may enter] [are present in] your home. Heavily infested areas may require additional bait stations. [For best results, use (all) (*number*) bait stations to ensure sufficient supply for the [roaches] [ants] [listed pests].]
5. Monitor [placements] [bait stations] regularly for activity but do not interfere with the [roaches] [ants] [listed pests] or bait stations. Replace bait stations [with new baits] when bait is depleted or every 30 days [until [roaches] [ants] [listed pests] are controlled].

The key to successful baiting is to ensure there is always a sufficient supply of TERRO® RBS when [roaches] [ants] listed pests] are present.

Product Removal (for adhesive applications):

1. Grasp bait station and [twist] [turn] [gently] [slowly] to remove [station] from adhesive [strip] [tape].
2. [Pull [free] [loose] adhesive strip [to stretch strip] until strip is freed from [application] surface.]

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store in a cool dry place. Do not store where children or animals may gain access.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Non-refillable Container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
