

**PRECAUTIONARY STATEMENT**  
**Hazards to Humans and Domestic Animals**  
**CAUTION**

Harmful if swallowed. This product contains a high percentage of petroleum distillate. In case of ingestion, contact a physician immediately. Do not induce vomiting unless directed by a physician. Do not remain in treated areas. aspiration of fumes is potentially hazardous.

Do not apply directly to food. Cover or remove all food processing equipment during application. Do not apply space sprays while food processing is underway. After spraying in meat packing plants, bakeries and other food processing plants, wash with an acceptable detergent solution and then rinse with potable water to remove all traces of contamination from all equipment, benches, shelving, etc., where food will be handled.

Remove pets and cover fish bowls before spraying.

This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

**PHYSICAL HAZARDS**

Do not store near heat or open flame.

**STORAGE and DISPOSAL**

**STORAGE AND DISPOSAL**

**STORAGE:** Store in a cool, dry place. Store in original container in a secure area away from animal feed and fodder. Do not use, pour, spill or store near heat or open flame.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Do not contaminate water, food or feed by storage or disposal.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

**GENERAL:** This product is toxic to fish, wildlife and birds. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes.

## FOOD PLANT SPRAY

For use in Non-Food and Food Areas of:  
**Food Processing Plants, Schools, Warehouses and Motels**

Pyrethrins . . . . .	.50%
*Piperonyl butoxide, technical . . . . .	1.00%
**N-Octyl bicycloheptene dicarboximide . . . . .	1.67%
Petroleum distillate - inert ingredient . . . . .	96.83%
<b>TOTAL</b>	<b>100.00%</b>

\*Equivalent to .80% (butylcarbityl) (6-propylpiperonyl) ether and .20% related compounds.

\*\*MGK-264, Insecticide Synergist.

**Not Reviewed.** Registrant claims to be in accordance with Reregistration of Pesticide Product Guidance for Phase 2 Response, Page 2.12, Active to Inert Change in Status

**CAUTION:** KEEP OUT OF REACH OF CHILDREN

## DIRECTIONS FOR USE

### General Classification

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

### For Use in Fogging Equipment:

To kill flies, mosquitoes, gnats and other insect pests\* in food storage areas of warehouses, storage rooms and similar locations. Food must be stored in multiwall paper bags or cloth bags to avoid contamination by insecticide residues. Close room or warehouse and shut off all ventilating systems. Use a spraying machine similar to the Microsol machine or use fixed ceiling sprayers that produce a very fine spray. Use a dosage of one fluid ounce per 1000 cubic feet of room space. Do not remain in treated areas. Ventilate the area after treatment is completed. Repeat application as necessary for insect control. Sweep up and destroy fallen insects.

### For Use in Pressurized Tank Sprayers as a Wetting Contact Spray:

To kill the accessible stages of insect pests\* in granaries, warehouses, storage rooms and similar locations. Apply as a coarse, wet spray to all areas infested by these insects. Use a dosage of 1 gallon per 1000 square feet. Pay attention to cracks and crevices in floors, walls and ceilings. Spray thoroughly around and into floor drains, conveyors and other areas where insects may be found. DO NOT apply this spray to surfaces that may come in contact with food; excessive residues in food may result.

To kill roaches, silverfish and waterbugs in sheltered situations. Apply a coarse spray into all cracks and crevices in woodwork, floors, underneath sinks and in all places where these insects shelter. Contact as many insects as possible. Repeat as necessary for control. Do not allow spray to contact any stored food.

\*Effective against the following insects pests: rice weevils, confused flour beetles, saw-toothed grain beetles, cadelles, meal moths and granary weevils.
