INSECTICIDES

E.P.A. No. 150-41

TO CONTROL FLIES, MOSQUITOES, GNATS

EQUIPMENT: Use a good hand sprayer, machine sprayer or fogger.

PREPARATION: Close all doors and windows prior to fogging. Suspend spray mist in air so it settles gradually to the floor. Keep closed for 10 to 20 minutes. Sweep up and destroy fallen insects. Repeat as necessary for control of flies, mosquitoes and gnats. We recommend 2 oz. per 1000 cu. ft.

FOR TREATMENT OF DAIRY AND BEEF CATTLE FOR HORN FLIES, STABLE FLIES, MOSQUITOES AND GNATS: Use a good machine sprayer or fogger and apply as a mist. We recommend 1 to 2 ounces of **Taboo** to each animal. Spray before milking or pasturing for protection from horn flies, house flies, stable flies, mosquitoes and gnats. Particular attention should be taken to cover the animal's entire body especially the legs, shoulders and belly. Avoid wetting the hides of the animals and around the eyes, nose and mouth. Do not apply within one week of slaughter. Do not exceed 2 ounces daily per animal. Care should be taken that the spray does not come in direct contact with the cow's teats unless they are washed and dried before milking. Such application may seriously degrade the quality of the milk.

FOR TREATMENT OF HORSES AND PIGS FOR STABLE FLIES, MOSQUITOES AND GNATS: Spray **Taboo** on pigs to protect them from stable flies, mosquitoes and gnats. Spray daily once or twice as needed. Spray adult hogs lightly so as to moisten the hair tips. Do not exceed 1 ounce daily per adult hog or .5 ounce for younger animals. Use mist spray only on horses and do not exceed 2 fluid oz. per animal at each application.

FOR KENNELS TO CONTROL HORN FLIES, STABLE FLIES, MOSQUITOES AND GNATS: Apply **Taboo** at rate of 1 gallon per 1,000 square feet of surface area to outside dog runways, window sills and ledges of dog kennels. Spray floors, walls and cracks where infestations may occur.

SANITATION: Breeding and travel areas like trash, manure and garbage piles should be removed and destroyed.

CAUTION: Harmful or fatal if swallowed, inhaled or absorbed through the skin. Do not breathe spray mist. Do not get in eyes or on clothing. In case of contact, wash immediately with soap and water. Wash all contaminated clothing with soap and hot water before reuse. If swallowed, call a physician immediately. Wash hands, arms and face with soap and water after handling and before eating and smoking.

Do not contaminate water, food or food processing equipment. Do not store in temperatures over 130 degrees F. Keep well corked when not in use.

EMPTY CONTAINER: Do not reuse empty container. Wash thoroughly with water and detergent. Discard in a safe place.

This product is toxic to fish. Do not contaminate water by cleaning of equipment, or disposal of wastes.

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.

NOTICE: Seller's guarantee shall be limited to the terms of the label, and subject thereto the buyer assumes any risks to persons or property arising out of use or handling and accepts the product on these conditions. Apply this product only as specified on this label.
