

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals:

DANGER

KEEP OUT OF REACH OF CHILDREN. Corrosive. Causes eye damage and severe skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

STATEMENT OF PRACTICAL TREATMENT: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

STORAGE AND DISPOSAL

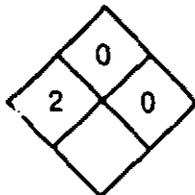

- Do not contaminate water, food, or feed by storage or disposal.
- Open dumping is prohibited.
- Do not reuse empty container.

PESTICIDE DISPOSAL: Pesticide or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides.

CONTAINER DISPOSAL: Triple rinse (or equivalent) and dispose in an incinerator or landfill approved for pesticide containers.

Consult federal, state or local disposal authorities for approved alternative procedures such as limited open burning.

For sale, for use and storage by maintenance personnel only.

AN-TEC 110 ACID SANITIZER

Active Ingredients:

Phosphoric Acid..... 45.0%

Inert Ingredients..... 55.0%
100.0%

DANGER: Keep Out Of Reach Of Children
See left panel for additional precautionary statements.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOR SANITIZING NON-POROUS FOOD CONTACT SURFACES IN BEVERAGE, DAIRY AND FOOD PROCESSING PLANTS.

1. Equipment, surfaces and articles must be precleaned before applying sanitizing solution. Remove gross food particles and soil by preflush, prescrape or presoak treatment. Clean equipment surfaces by circulating, soaking or spraying with appropriate detergent.
2. Following the cleaning cycle, the equipment, etc. must be rinsed with potable water.
3. Sanitize with AN-TEC 110 solution containing 1 fl. oz. to 4 gallons water (255 ppm dodecylbenzenesulfonic acid). Apply sanitizing solution by circulating or spraying to wet all surfaces thoroughly. Hollow objects should be flushed and filled. Allow 2 minutes contact time. When used at this concentration, AN-TEC 110 does not require a final potable water rinse.
4. For manual operations, a fresh use solution should be prepared daily or when the solution becomes diluted or soiled. For mechanical applications, the use solution may not be reused for sanitizing but may be reused for cleaning purposes.
5. Allow equipment to drain and foam to dissipate for at least 10 minutes before using equipment.

Authorized for use under USDA
Poultry, Meat, Rabbit and Egg
Products Inspection Programs.
