

CENTER PANEL

PIONEER PLO RINSE 75

A Disinfecting and Sanitizing Agent

ACTIVE INGREDIENTS

n-alkyl (50% C14, 40% C12, 10% C16) dimethyl benzyl ammonium chloride 10.25 %

INERT INGREDIENT

water 89.75 / 100.0 %

NET CONTENTS 1 GALLON

WARNING: KEEP OUT OF REACH OF CHILDREN. Causes eye irritation. Harmful if swallowed. Do not get in eyes. Avoid contact with skin. In case of contact flush with plenty of water. If eye irritation persists, get medical attention.

EPA REGISTRATION NO. 151-11-AA

GENERAL USES

RIGHT PANEL

Sanitization of Equipment in Food Processing and Meat Plants: Clean and rinse equipment thoroughly. Then scrub with a solution of 1 ounce PIONEER PLO RINSE 75 per 4 gallons of water. Flush equipment with a clear potable water rinse before re-use. On surfaces difficult to clean completely, such as meat cutting boards, increase strength of sanitizing solution to 1 ounce to one gallon of water, and also rinse with clear potable water before re-use.

Disinfection and Sanitization of Fabrics: After washing agitate in a solution of 1 ounce PIONEER PLO RINSE 75 per gallon of water to disinfect clothing and linens. To render diapers and other linens bacteriostatic, immerse in solution containing 1 ounce of PIONEER PLO RINSE 75 for each ten pounds of cloth, using 5 gallons of water.

Dilute before using. Non-flammable, non-volatile and odorless. PIONEER PLO RINSE 75 solutions do not lose their effectiveness on standing.

Table with 2 columns: Organism, and a value (likely kill time or concentration). Includes Staphylococcus aureus and S. typhosa.

ACCEPTED stamp with date and handwritten number 51-11

DIRECTIONS

LEFT PANEL

Disinfection and Sanitization in Hospitals, Public Rooms, Schools, Institutions and Homes: After cleaning, apply solution of 1 ounce PIONEER PIO RINSE 75 per 4 gallons of water for usual sanitizing applications. To disinfect surfaces difficult to clean or in contagious disease areas, use 1 ounce per 2 gallons of water.

Eating and Drinking Utensils: Wash thoroughly, rinse in water, then immerse for 1/2 minute to 2 minutes (as required by local Health Depts.) in a solution of 1 ounce PIONEER PIO RINSE 75 in each 4 gallons of water. Air dry.

This product fulfills the criteria of Appendix F of Grade "A" Pasteurized Milk Ordinance, 1965 Recommendations of the U.S. Public Health Service in waters up to 550 ppm (32 grains per gallon) of hardness calculated as CaCO₃ when tested by the method outlined by Chambers.

Rinse empty container thoroughly with water and discard it.
