No-Pest Strip INSECTICIDE

DO NOT REMOVE STRIP FROM FOIL ENVELOPE UNTIL READY FOR USE

NO-PEST STRIP is used to control flies, gnats, mosquitoes and other small flying insects for up to 4 months in enclosed area. It is ideal for: bedrooms • living rooms • family rooms • garages • attics • basements • kennels • horse barns • animal buildings. Use one NO-PEST STRIP per one thousand cubic feet of enclosed area (10' x 12' x 8'). Three to four strips normally provide control in a home of 1200 to 1500 square feet. Hang or stand decorative holder containing the strip out of the reach of children and place to allow air circulation on all sides.

NOW TO ASSEMBLE—This package contains four parts.

- 1) Press outer edges of holder (A) to form as shown. Push out hanging tab on top flap and fold locking edges down before forming top. Fold over top flaps and engage locking edges firmly into holder. Do not attempt to open top once it has been locked.
- 2) Cut open envelope (B) with scissors. Remove NO-PEST STRIP and place inside holder through open bottom. Fold down locking edges, form and lock bottom of holder. Do not allow the strip to touch textiles or painted surfaces—it may stain.
- 3) Press outer edges to form sleeve (C), and slide it down over the holder containing the strip. Move sleeve up or down to open or close holes of the holder. The NO-PEST STRIP can be seen through the round holes in the holder when in the open position.
- 4) To hang unit, attach metal hanger (D) to the tab on top of holder.

When flying insects are a problem, place the holder in the open position. Close the holder when flying insect control is not needed. Weather and excessive ventilation in a room may reduce effectiveness. Replace with a new strip when effectiveness diminishes.

ACTIVE INGREDIENTS: 2,2-DICHLOROVINYL DIMETHYL PHOSPHATE, 19.2% w/w;
RELATED COMPOUNDS, 0.8% w/w;
INERT INGREDIENTS: 80.0% w/w; TOTAL 100.0% w/w. (*EQUIVALENT TO 20.0% w/w TECHNICAL VAPONA® INSECTICIDE).

CAUTION! KEEP OUT OF REACH OF CHILDREN

Do not get in mouth; harmful if swallowed. After prolonged storage, a small amount of liquid may form on the strip. Do not get liquid in eyes. Wash hands thoroughly with soap and water after handling strip. Do not place in hospital or clinic rooms, such as patients' rooms, wards, nurseries, operating or emergency areas. Do not use in any room where infants, the sick or aged are or will be present for any extended period of confinement. Do not use in kitchens, restaurants, or areas where food is prepared or served.
