## DIRECTIONS FOR USE

**GRASSHOPPERS:** Apply at the rate of 1½ pints in 10-150 gallons of water per acre. Spray on green plants along fence lines, ditch banks and roadsides. On alfalfa being raised for seed, corn, barley, wheat and oats while grasshoppers are young and before they migrate to crop plants, treating a 50-foot border of crop plants adjacent to a grasshopper-infested area often gives protection to crops. Repeat application every 10 days if necessary.

**LYGUS BUGS ON SEED ALFALFA:** Apply in early spring or after cutting before new growth is 4 inches tall at the rate of 1½ pints per acre in 10-150 gallons of water. Spray when bees are not working, in early morning, late evening or night.

**HORNFLIES ON CATTLE:** Wet backs of animals with a spray consisting of 1 quart TOXAPHENE in 48 gallons of water. Apply every three weeks or as needed.

**LICE AND TICKS ON CATTLE:** Spray or dip animals with a mixture of 1 quart of TOXAPHENE in 48 gallons of water.

**LICE, KEDS (SHEEP TICK) AND TICKS ON SHEEP AND GOATS:** Wet backs of animals with a spray consisting of 1 quart of TOXAPHENE in 48 gallons of water or dip animals in a mixture of 1 pint of TOXAPHENE in 48 gallons of water.

## CAUTION

Do not apply to dairy animals.

Do not apply to animals within 28 days of slaughter.

This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your Cooperative Agricultural Extension Service.

Birds feeding on treated areas may be killed.

Do not use on calves under 3 months. Avoid treating animals during cold stormy weather and overheated and sick animals. Do not spray in dairy barns.

Do not apply to any area not specified on the label.

Rinse spray equipment and containers and dispose of liquid wastes in a pit on non-crop lands located away from water supplies.

Do not reuse empty container. Wash thoroughly with water and detergent.

Discard in a safe place.

## WARNING

May be fatal if swallowed.

Do not get in eyes, on skin or on clothing.

This solution in contact with skin can cause toxic symptoms; wash off immediately with soap and water.

Avoid inhalation of sprays or vapors.

Keep vapors and sprays from getting in eyes or on clothing.

KEEP AWAY FROM CHILDREN and animals.

Avoid contamination of feed and foodstuffs.

Avoid application to edible portions of crops upon which harmful residues might remain, or remove such residues by washing or stripping before using.

**ANTIDOTE: *Internal:* Use emetic made by dissolving 1 tablespoon of table salt in a glass of warm water and repeat until vomit fluid is clear. CALL A DOCTOR AT ONCE.**

NON-WARRANTY: Manufacturer or Seller makes no warranty, expressed or implied, concerning the use of this product other than for the purposes indicated on the label. Manufacturer or Seller is not liable for any injury or damage caused by this product due to misuse, mishandling or any application not specifically described and recommended on the label.

**DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME.**
