

[168-911]

DIRECTIONS

Mix two teaspoons per gallon of water.

FOR BEST RESULTS

1. Apply when you see first pests appear on a calm day, preferably in the morning.
2. Repeat at 7 to 10 day intervals, if needed.
3. READ CAUTIONS BELOW.
4. Spray plant to point of runoff.
5. Be sure to spray underside of leaves as well as tops.

SUPERSPRAYER & HOSEMASTER SETTINGS: 2 teaspoons per gallon of water
