TO CONTROL CREEPING BENT IN LAWNS: Mix 8 teaspoons per gallon of water to treat 200 square feet. Wet bent areas to point of runoff. Will require 2 or 3 treatments (Spring, Summer and Fall) to control. Reseed after bent dies in 2-3 weeks during the growing season. One quart of Weedit Lawn Weed Spray will treat 4800 square feet.

CAUTION: Harmful if swallowed. Avoid contact with skin, eyes, or clothing. Wash hands after use.

Weedit Lawn Weed Spray will kill plants other than weeds. Vapors from this product may injure susceptible plants in the immediate vicinity. Avoid spray drift to susceptible plants, as this product may injure grapes, beans, peas, tomatoes, ornamentals. (Coarse sprays with

less pressure are less likely to drift.) Apply sprays on calm day when there is no wind. Thoroughly clean spray equipment (OR DO NOT USE SPRAY EQUIPMENT FOR OTHER PURPOSES). Do not store near heat or open flame, or near fertilizers, seeds, insecticides, or fungicides. Do not contaminate water used for irrigation or domestic purposes. Destroy container when empty. Do not burn.

Spray Settings - Morgro Super Sprayer and Hose Master, set dial at 4 teaspoons per gallon of water. For other kinds of sprayers mix 4 teaspoons per gallon of water.

NON-WARRANTY: Manufacturer or seller is not liable for any injury or damage caused by this product due to misuse, mishandling or any application not specifically recommended on this label.
