SALT LAKE CITY, UTAH

WASCO 28-28-0

Contains 0.28% (R) DI-SYSTRON

ACTIVE INGREDIENTS:

O,O-Diethyl S-[2-(ethylthio) ethyl] phosphorodithioate 0.28%

INERT INGREDIENTS: 98.72%

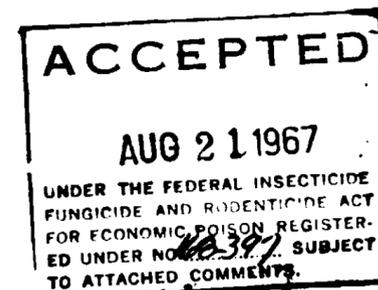

Total..... 100.00%

U. S. Patent No. 2,759,010

WARNING: KEEP OUT OF REACH OF CHILDREN

Net Contents:
USDA REG. NO. 168-X

STOP: READ LABEL BEFORE USING

DIRECTIONS FOR USE

(R) DI-SYSTRON is a systemic insecticide that enters the plant through the root system. The insecticide, when placed near the roots, is picked up and moves in the sap stream to all parts of the plant where it kills insects as they feed on the plant.

SUGAR BEETS: For the control of aphids, mites, and leafhoppers, apply at the rate of 357 pounds (one pound of actual insecticide) per acre. Place the material in the seed furrow 2 inches under the seed or in a band on each side of the seed at planting. Do not apply on the seed. Do not apply more than 3 times per season nor within 30 days of harvest. Allow a minimum of 21 days between applications.

IMPORTANT: When used on sugar beets at the recommended rates under adverse conditions such as extremely cool and wet or extremely dry weather, this product may cause some delay in emergence, stunting of seedlings, or reduction of stand. Such damage may be more pronounced in light sandy soils. Plant injury may also occur or may be enhanced when certain pre-emergent herbicides are used in conjunction with this product.

WARNING

Poisoning may occur as a result of exposure. May be fatal if swallowed. May be absorbed through skin. Do not breathe dust. Avoid contact with skin, eyes or clothing. Do not contaminate feed or food. Wash thoroughly after handling. Do not reuse container. Destroy by burying in a safe place. Do not burn.

KEEP OUT OF REACH OF CHILDREN.
To Physicians: Antidote is Atropine Sulphate. 2 PAM is also antidotal and may be administered in conjunction with Atropine.

Symptoms of Poisoning: A sense of "tightness" in the chest, sweating, contracted pupils, stomach pains, vomiting and diarrhea.

TREATMENT: In case of poisoning, CALL A PHYSICIAN IMMEDIATELY. Have patient lie down and keep quiet. If swallowed, induce vomiting by giving a tablespoonful of salt in a glass of warm water. Administer milk or water freely and again induce vomiting until vomit fluid is clear. If on skin, remove contaminated clothing and wash skin immediately with soap and water. If eyes are contaminated, wash with flowing water for at least 15 minutes.

CAUTION

This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds. Apply this product only as specified on this label. Do not contaminate water by cleaning of equipment, or disposal of wastes and containers.

PATENT LICENSE

The principal active insecticidal ingredient of this product is patented under U. S. Patent No. 2,759,010 of Chemagro Corporation, Kansas City, Missouri, and the purchase of this product includes a limited license under said patents to use or reformulate the product only in the manner provided by the recommended application on the present label. The purchaser obligates itself to notify Chemagro Corporation of any proposed use or reformulation of such licensed product not provided by said recommended application, and to obtain Chemagro's approval in writing before making any such use or reformulation of the licensed product. Any use, or reformulation intended for use, of the licensed product in the home and garden field is specifically prohibited by such license.

NOTICE

NON-WARRANTY: Manufacturer or seller is not liable for any damage or injury caused by this product due to misuse, mishandling, or any application that is not specifically recommended on this label.

(R) DI-SYSTON is the Registered Trademark of Farbenfabriken Bayer A. G., Chemagro Corporation licensee.
