DIRECTIONS FOR USE

GENERAL CLASSIFICATION

STORAGE AND DISPOSAL

Do not reuse empty container. Triple rinse or pressure rinse container before disposal. Dispose of rinsate by use according to label directions. Then offer for recycling if available or puncture and dispose of in a sanitary landfill or by incineration, or by other procedures approved by state and local authorities. Do not burn, unless allowed by state or local ordinance. Do not contaminate water, food or feed by storage or disposal. Wrap container and put in trash.

GENERAL INFORMATION

GRASS AND WEED SEED KILLER contains a herbicide which prevents the germination of seeds of most annual grasses and broadleaf weeds. It also kills many established weeds.

Most GRASS & WEED SEED KILLER applications provide effective weed control for the entire season. Heavy rainfall permits higher dosages to be used for longer control, but may also cause some crop injury. GRASS & WEED SEED KILLER should be applied before weeds emerge. Established weeds are killed when they germinate after application.

APPLICATION DIRECTIONS

Shake container well before each use. Store unused product in container not re-opened.

Apply GRASS & WEED SEED KILLER uniformly to the soil surface. Use equipment that will apply the proper amount of material. Do not apply more than [illegible] pounds per 1,000 square feet per season. Avoid contact of GRASS & WEED SEED KILLER with foliage or green bark of ornamental plants as injury may result.

Apply GRASS & WEED SEED KILLER only to the soil surface. Do not incorporate into the soil by cultivation.

Do not apply GRASS & WEED SEED KILLER through any type of irrigation system except sprinkler irrigation. Do not apply through sprinkler irrigation systems connected to public water systems unless the system has a functional backflow prevention device in the water supply line. Do not apply through sprinkler irrigation systems connected to wells unless the well is equipped with a functional backflow prevention device. Do not apply through any irrigation system unless you first consult the irrigation equipment dealer or other qualified person to adjust your system to avoid excessive runoff or puddling of GRASS & WEED SEED KILLER.

ANOTHER MORGRO QUALITY GARDEN PRODUCT

GRASS & WEED SEED KILLER with TREFLAN*

AN HERBICIDE FOR USE IN ORNAMENTAL TREES, WOODY SHRUBS, AND MOST ESTABLISHED FLOWERS.

ACTIVE INGREDIENT:	
*Trifluralin (a,a,a-trifluoro-2,6-dinitro-N, N-dipropyl-p-toluidine	5.00%
INERT INGREDIENTS:	95.00%
TOTAL	100.00%

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water. See side panel for additional precautionary statements.

EPA REG. #168-454 **EPA EST. #168-UT-1**

NET CONTENTS: 1 lb.
