

**DIRECTIONS**

**LAWN WEEDS:** Use two teaspoonful and mix in one gallon of water. Apply to lawn after mowing. This one-gallon mixture will cover 200 sq. ft. of lawn area (10 x 20 ft.) Water normally after spraying and mixture has been on weeds for 24 hours.

**CONTROLLING WEEDS IN PASTURES, OTHER TURF AREAS:** (Golf courses, parks, cemeteries) — Apply four to eight pints per acre in Spring or Fall when weeds are actively growing. Use higher rate where perennial broadleaf weeds are the major problem. **DO NOT APPLY TO NEWLY SEEDD AREAS** until grass has been cut several times. Where bentgrass predominates, make two applications of two pints per acre at three-week intervals. **DO NOT GRAZE LIVESTOCK** for seven days after spraying pastures. Do not use on susceptible Southern grasses such as St. Augustine. Bentgrass and clover may be injured if treated.

**CAUTIONS**

Harmful if swallowed.  
 Avoid contact with skin, eyes or clothing.  
 Avoid spray drift to susceptible plants as this product may injure cotton, beans, peas, ornamentals, etc. (Coarse sprays are less likely to drift.)  
**DO NOT USE SAME SPRAY EQUIPMENT FOR OTHER PURPOSES.**  
 Do not store near fertilizers, seeds, insecticides or fungicides.  
 In high temperatures vapors from this product may injure susceptible plants in the immediate vicinity.  
 Do not contaminate water used for irrigation or domestic purposes.  
 Do not use in greenhouses.  
**DO NOT REUSE CONTAINER.** Destroy by burying in a safe place. **DO NOT BURN.**  
 Do not use this product for purposes other than those recommended on this label.
