

ning, or resting. Repeat as necessary, paying particular attention to areas behind shelving, book cases, and storage areas.

CARPET BEETLES: Apply with a brush to areas of the floor and baseboards where these insects are found. Work into cracks and under carpets so that a residue will be present. Treat as necessary to give continued control.

SPIDERS: Apply as a wet spray to infested areas of baseboards and corners. Also treat outside window and door frames, under eaves and other hiding places to prevent entry into the household. Repeat treatments as necessary to give continued control.

CAUTION: HARMFUL IF SWALLOWED. Avoid prolonged and repeated inhalation or contact with skin. Do not contaminate food, utensils, dishes or drinking water. Do not apply to humans, pets or birds, or near fish bowls. Keep out of reach of children. Do not use or store near heat or open flame. Wash thoroughly after using.

DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.

NOTICE: Buyer assumes all risk and liability of use, storage and/or handling of this material not in accordance with the terms of this label.

CONTENTS: 1 QUART

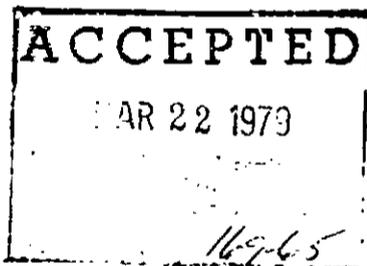

ACTIVE INGREDIENTS100.00%
0,0-diethyl 0-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorohioate* 0.50%
Heavy Aromatic Naphtha 99.50%
*Otherwise known as Dioxin. Trademark of Glegy Chemical Co.

CAUTION: Keep out of reach of children.

See other cautions on side panel.

GREEN UP

DIRECTIONS FOR USE

This product when used according to directions will kill roaches, waterbugs, ants or insects by contact and residual action. When sprayed or painted with a brush in places where the insects are found, the surfaces will be completely wet after application. This is neither necessary nor desirable. Spot treat only those places where the insects are seen resting, running, or hiding. Repeat applications as necessary to give continued control.

ROACHES, WATERBUGS: Apply to cracks, crevices, under baseboards, under sinks, around cabinet and moldings. Repeat treatments as necessary to give continued control.

ANTS: Brush on window frames where these pests may enter. Treat the openings around electrical outlets, heat ducts, water pipes and basements. Repeat treatments as necessary to give continued control.

SILVERFISH: Apply to cracks, crevices, and other areas where the insects have been seen.

DIRECTIONS FOR USE

This product when used according to directions will kill roaches, waterbugs, ants and certain other insects by contact and residual action. It should be sprayed or painted with a brush in order that surfaces will be completely wet after application. It is neither necessary nor desirable to treat large areas. Spot treat only those places where insects rest, run or hide. Repeat application as needed.
ROACHES, WATERBUGS: Apply to cracks, surfaces, or other areas where the insects have been seen resting, running, or hiding; around drainboards, under sinks, around cabinets, baseboards, and moldings. Repeat treatments as needed to give continued control.
ANTS: Brush on window frames and door sills where these pests may enter the premises. Treat the openings around electrical outlets, heat ducts, water pipes and baseboards where ants may enter the room from the wall spaces and partitions. Repeat treatment as needed to give continued control.
SILVERFISH: Apply to cracks, surfaces or other areas where the insects have been hiding, run-
