

GENERAL INSTRUCTIONS

BO-RID PD-2.5 is a liquid, non-selective, persistent general herbicide designed for use where control of all vegetation is desired. It is recommended for use in crop areas, such as fence rows, parking lots, and building loading docks, storage yards, tank farms, along pipelines, and utility line sites and other similar areas where grasses and weeds interfere with drainage, create a fire hazard or cause unsightly appearances.

DESCRIPTION OF PRODUCT

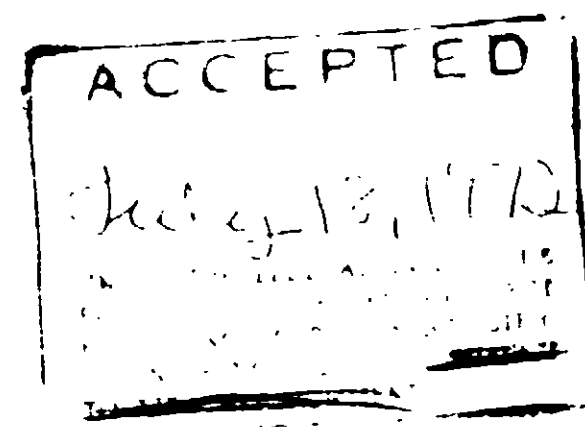

This liquid weed killer is composed of 2,4-dichlorophenoxy-3-bromo-5-sec-butyl-6-methyluracil, bromoacetic acid, 2,4-dichlorophenoxyacetic acid (isonoctyl ester), and 2,4-dichlorophenoxyacetic acid (isonoctyl ester). The on-octyl ester provides the product with low volatility with rapid penetration and translocation in the plant. The solubility of the herbicide in water assures an effective spray application under the most adverse conditions.

BO-RID PD-2.5 is a selective herbicide which kills weeds and grasses. It is a selective herbicide which kills weeds and grasses. It is a selective herbicide which kills weeds and grasses.

BO-RID PD-2.5 is a selective herbicide which kills weeds and grasses. It is a selective herbicide which kills weeds and grasses. It is a selective herbicide which kills weeds and grasses.

BO-RID PD-2.5 weed killer, when used according to directions will provide low cost, convenient and complete weed control for a season or more. Sprayed vegetation is no more flammable than vegetation destroyed by flame or other agricultural means. Because of the nature and odor, it is unlikely that sprayed vegetation will be eaten by livestock.

Notice to Buyer: Seller makes no warranty, expressed or implied, concerning the use of this product or the results indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to the instructions.

BO-RID BROMOIL PD-2.5 LIQUID WEED KILLER

EPA Reg. No. 179 - 61

CAUTION: KEEP OUT OF REACH OF CHILDREN.

ACTIVE INGREDIENTS:

Petroleum Oil	96.10%
2,4-Dichlorophenoxyacetic acid (isonoctyl ester) *	1.09%
Pentachlorophenol	0.80%
Other chlorophenols	0.09%
Bromacil (5-bromo-3-sec-butyl 6-methyluracil)	0.61%
INERT INGREDIENTS	1.31%

*2,4-D equivalent 0.70%
