CAUTION - Keep out of reach of children. See Side Panels for other cautions.

ASTRUXOL

TOMATO DUST

TOMATO DUST, FLEA BEETLES AND OTHER INSECTS

A dust containing 90% Sulfur and a Copper-Zinc-Silver complex for the control of Colorado potato beetle, flea beetles, leafhoppers, European corn borer, fall army worms, lace bugs, tomato fruit worms, tomato horn worms, tarnished plant bugs, exposed thrips, cabbageworms, early and late blight on potatoes and roses as well as dollar spot and brown patch on lawns. It also controls such insects as exposed thrips, fullers rose beetles, fibrotica on Chrysanthemums and Dahlias, leaf roller on roses, web worm and aids in control of powdery mildew, rust and blackspot on Roses.

For above uses: Dust thoroughly, preferably in the still air of early morning or late afternoon. For greenhouse and flower thrip control, apply this dust during the warm part of the day. For control of sod web worm and lawn fungus diseases scatter one pound of dust over each 200 sq. ft. of dry lawn area, then water thoroughly the next day. Apply when disease first appears and repeat every 7 to 10 days as necessary.

For dusting tomatoes and potatoes use between 30 and 100 pounds of dust per acre, depending on the size of the plants. Repeat application every 7 to 10 days as needed.

CAUTION: ASTRUXOL TOMATO DUST contains lead sulfide which may injure certain varieties of roses, lilacs, hydrangeas, peonies, squash, pumpkins and similar vine crops.

PRECAUTIONS: Do not inhale dust. Do not get dust on skin or clothes. Wash hands and face after use. Keep away from children. Do not use near open flames.

Active Ingredients:

- Sulfur
- *Lead sulfide (1-Naphthyl 7-methylacetate)
- *Copper zinc silver complex

Inert Ingredients

- * U.S. Pat. No. 2,993,477
