

DEXOL DE-SEED GRANULAR is a specially formulated selective preemergence herbicide. When used as directed, "One Easy Application" stops unwanted grasses, ie: Annual Bluegrass, Crabgrass, Stinkgrass, Goosegrass, Barnyard Grass and Foxtail. Also kills seeds of many broadleaf weeds (Chickweed, Knotweed, Pigweed, lambsquarters, Smartweed, Carpetwood, and Purslane) at sprouting. Apply DEXOL DE-SEED GRANULAR in the Spring of the year, around shrubbery and in flower beds containing established plants. Apply before grass and weed seeds begin to sprout.

CAUTION: Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes or clothing. In case of contact, flush with water.

CAUTION: Do not contaminate foodstuffs, feed or any body of water that would be available to animals or humans. Do not graze livestock on treated areas.

CAUTION: Do not use in lawns. Do not use in areas where you plan to plant desirable seeds within one year after use. Do not use on Aja, Myrtle, and Pachysandra.

CAUTION: Destroy this container when empty. Do not reuse for other purposes.

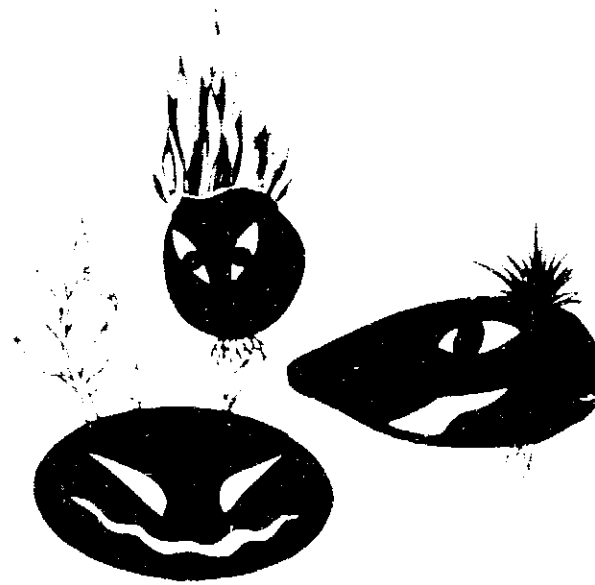

The manufacturer makes no warranties, express or implied, concerning this product or its use, which extend beyond the description on the label. All statements made concerning this product apply only when used as directed

DIRECTIONS FOR USE

DEXOL DE-SEED GRANULAR will control grass and weeds only where applied; therefore, even application (no skips or misses) is important. Punch indentations in top of can for easy "shaker" application and shake contents (10 oz.) over 330 sq. ft. For best results, use as follows:

1. Before applying, remove all existing grasses and weeds, as DEXOL DE SEED GRANULAR kills sprouting seeds but no existing plants. Cultivate area to be treated and break up large clods to assure uniform distribution.

2. Apply after flowers or plants have become established, (2 to 3 inches or more in height)

3. At application, work lightly into soil to improve weed prevention action. Lightly soak surface treated to a depth of 2 to 3 inches with sprinkler or fine hose spray.

CAUTION: This product is toxic to fish. Keep out of lakes, streams, and ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Do not apply when weather conditions favor drift from areas treated. Apply this product only as specified on this label.

ACTIVE INGREDIENTS:

Trifluralin	5%
(a, a, a-Trifluoro-2, 6-dinitro-N, N-dipropyl-p-toluidine)	

INERT INGREDIENTS: 95%
