

DEXOL SUPER

DIRECTIONS FOR USE

Shake well before using.

Partially fill sprayer with water. While agitating the water, add Dexol Super at the following recommended dilutions:

- 1½ tablespoons per 1 quart of water
- 5 tablespoons per 1 gallon of water
- 8 ounces (1 cupful) per 3 gallons of water
- 1 gallon per 50 gallons of water

Add balance of water. Spray foliage thoroughly. Spray both upper and under surfaces of leaves. When treating scale in the migratory state, be certain spray contacts the insects. This material may be used in all popular type, hose-end applicators if manufacturers directions are followed.

CAUTION: Harmful if swallowed. Do not reuse container. Destroy when empty.

DEXOL SUPER is a combination of oils and certain inert ingredients blended to form a stable emulsion. When used according to directions, it will effectively control the insect life listed on plants specified.

For control of:

SCALE in the migratory state, such as Black, Red, Purple, Citricola, San Jose, Brown Apricot, Olive Gray and Cottony Cushion. Also effectively controls **MEALYBUG**, Golden and Citrophilus, Red Spider, Thrips, Aphids and White Flies on Oaks and ornamental shrubbery.

DEXOL SUPER is a spray especially formulated for **CAMELLIAS** to control Japanese Tea Scale. Use **DEXOL SUPER** for control of the insects listed above on Azaleas, Gardenias, Japonicas and ornamental shrubbery.

Active Ingredients:

Mineral Oil 68.7%

Inert Ingredients: 31.3%

Total: 100.0%

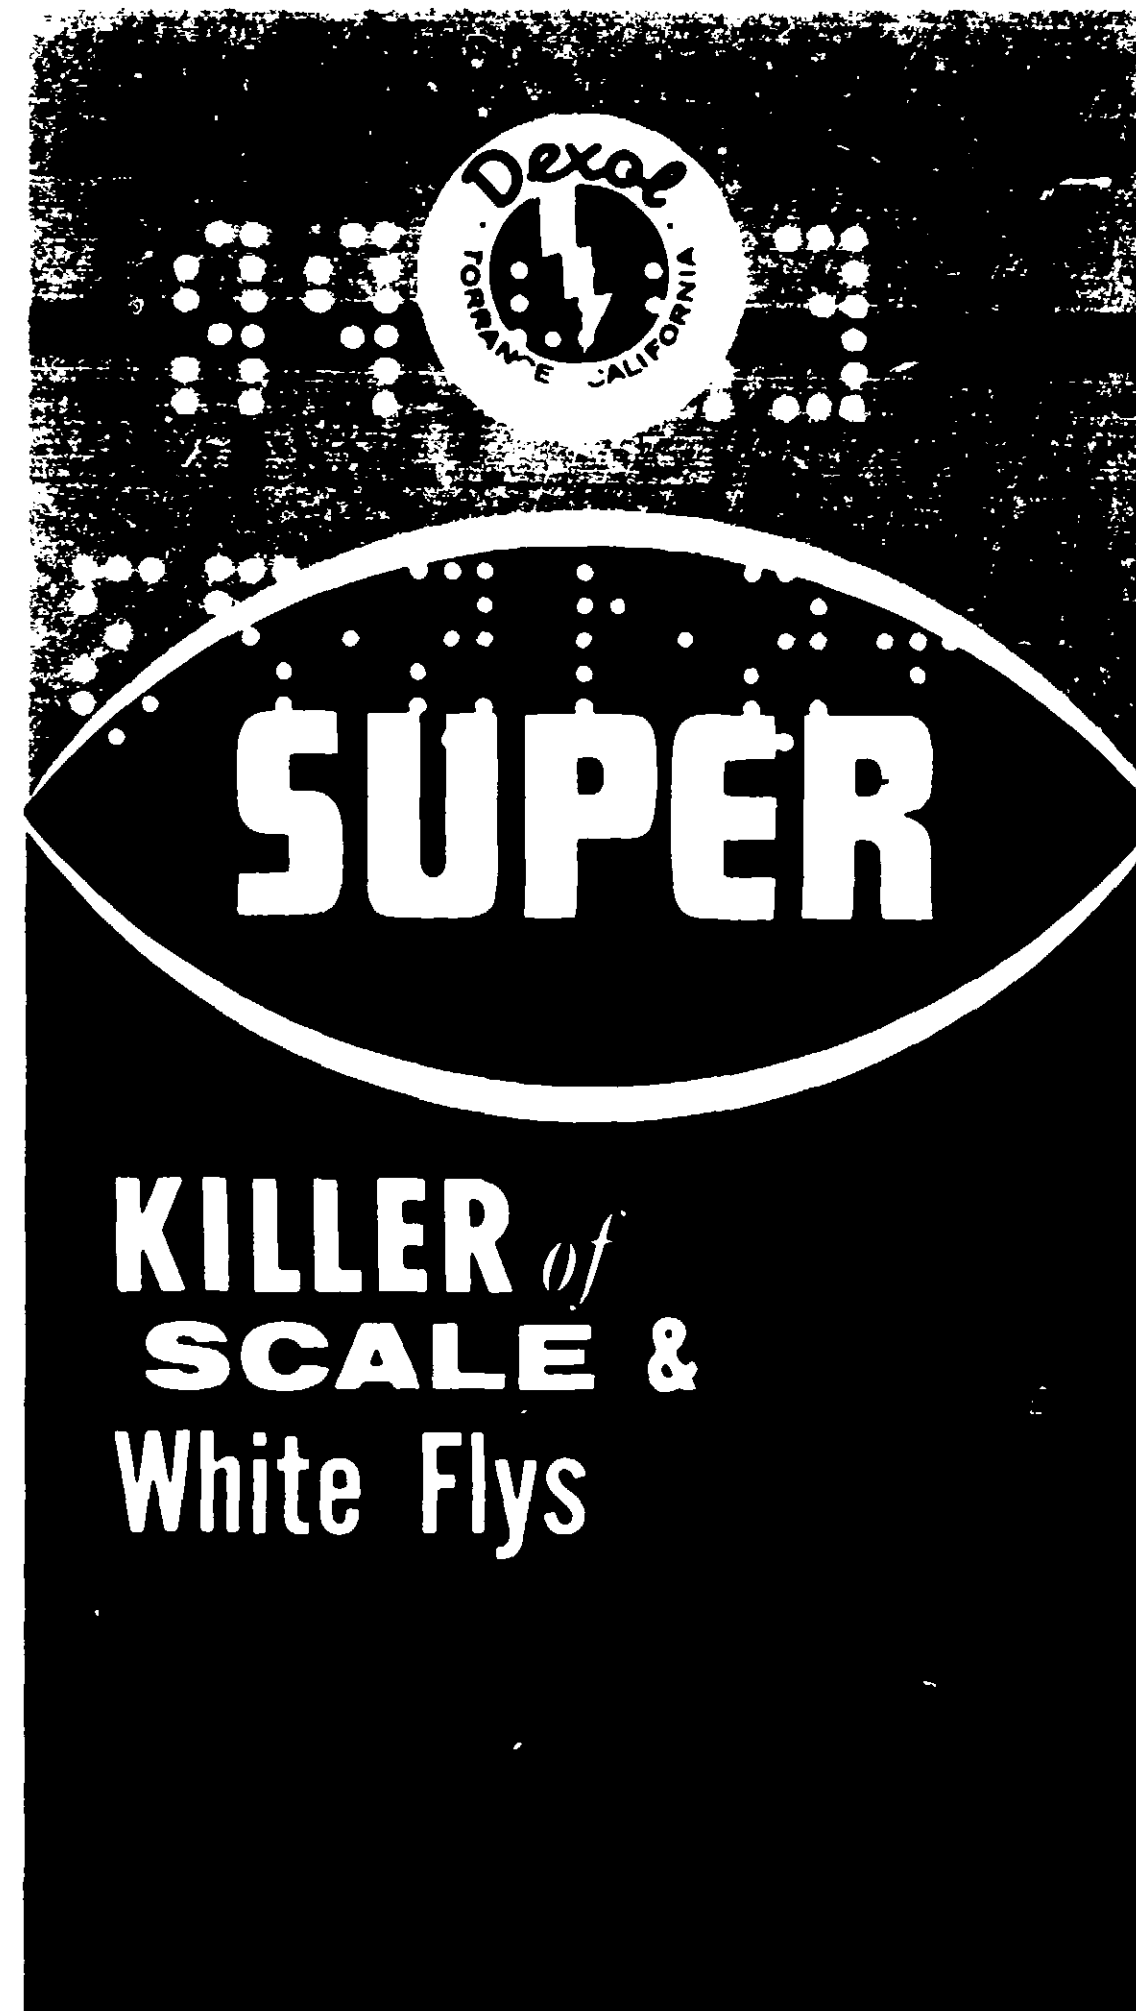

Petroleum Classification Medium

Minimum Unsulphated Residue 92%

EPA Reg. No. 192-88-AA
