

Dexol Sevin Liquid is a 25% emulsifiable concentrate of the popular Sevin broad spectrum insecticide. Dexol Sevin Liquid is particularly well suited for use in garden hose sprayers.

Read Entire Label—Use in strict accordance with all directions and cautions.

#### DIRECTIONS

Prepare fresh spray solution at time of use. Do not store dilution. Spray directly on pests and plants thoroughly wetting both sides of leaves and other plant parts. Apply as soon as injurious pests appear and repeat treatment at 7 to 14 day intervals as required to control.

Ornamentals: Roses, Carnations, Gladioli, Zinnias, Geraniums, Chrysanthemums, Lilacs, Hydrangeas, Azaleas—Use 1 1/2 tablespoonfuls per gallon every 7 to 10 days as needed for control of Japanese Blister, flea and June beetles; boxelder, mealy, lace and plant bugs; leathoppers, leaf roller, psyllid, rose aphid and exposed thrips.

Trees and Shrubs: Birch, Juniper, Oak, Pines, Elm, Maple, Dogwood, Boxwood and other shrubs and shade trees—Use 1 1/2 tablespoonfuls per gallon every 7 to 10 days as needed for control of Gypsy moth, scale insects, bagworm, birch, boxwood and oak leaf mines; elm leaf aphid, Japanese, June, elm leaf and willow leaf beetles, mimosa webworm, tent and puss caterpillars; rose aphid and slug, periodical cicada, leathopper, leaf roller, boxelder, lace, mealy, plant and thorn bugs; apple aphid, orange tortrix and exposed thrips.

Lawns: Use 8 ounces Sevin Liquid in 18 gallons of water per 625 square feet of lawn for control of cutworms, chinch bugs, fall armyworm, leathopper, sod webworms, or lawn moths, ants, earwigs, fleas, and millipedes.

Vegetables: Potato, Tomato, Eggplant, Pepper: Use 2 tablespoonfuls per gallon of water for control of flea beetle, leathoppers, tomato fruitworm, fall armyworm, tomato hornworm, stink bugs, lace bugs and tarnished plant bugs. Can be used until day of harvest. Carrots, Cabbage, Beet, Lettuce, Radish, Spinach, Turnip, Broccoli, Brussels Sprouts, Cauliflower: Use 2 tablespoonful per gallon of water for control of flea beetle, harlequin bug, corn earworm, armyworms, diamondback moth and imported cabbage worm. Do not use within 14 days of harvest on leaf lettuce, spinach, cabbage and turnips. Do not use within 3 days of harvest on the other crops.

Fruit: Peaches, Apricots, Nectarines, Cherry, Plum, Prune: Use 1 1/2 tablespoonfuls per gallon of water for control of lesser peach tree borer, plum curculio, codling moth, orange tortrix, tussock moth, fruit tree leaf roller, Japanese Beetle, Lecanium and San Jose scales. Do not use within 3 days of harvest for apricots and nectarines, and 1 day of harvest for the other crops.

Note: This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your Cooperative Agricultural Extension Service.

Caution: Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing of spray mist. Do not take internally. Skin contact may be harmful. Avoid contact. Wash thoroughly after using. Do not contaminate or store near food or foodstuffs.
