

Read entire label. Use as directed. Observe all cautions and warnings.

**DEXOL ROSE SHIELD** is a dual-purpose aerosol. It has been specially formulated to provide an effective control for most sucking and chewing insects plus an excellent fungicide for control of mildew.

**DEXOL ROSE SHIELD** controls Aphids, Leafhoppers, Mites and White flies that feed on the plant sap. Also kills Thrips, Japanese Beetles and Cuban Laurel Thrip on roses, ornamental flowers and shrubs.

As a fungicide, **DEXOL ROSE SHIELD** controls powdery mildew on roses, asters, gardenias, snapdragons and calendula. Best results are obtained if applied before disease appears and weekly thereafter.

**DIRECTIONS FOR USE:** Remove protective cap. Hold container 18" from plant and press valve down. Spray with slow hand motion in one second bursts for best results. Spray on both sides of both leaves.

Do not spray when temperature is over 90°F or the plant is wet. Do not spray when temperature is
