**WHEN TO APPLY:** Apply any time during the growing season when weeds are actively growing. Treat Chickweed, Henbit, Wild Onion, and Garlic in the fall or in the spring, as needed. On new lawns wait until the turf has reached a height of 2 inches before making an overall spray treatment. Wait 3 weeks before putting new grass seed or stolons down in the bare spots. The maximum number of broadcast applications per treatment site is 2 per year.

[PAMPHLET CONT'D - DEXOL LAWN WEED KILLER]

This product can reach groundwater as a result of mixing and loading. To minimize groundwater contamination from spills during mixing, loading and cleaning of equipment, take the following steps:

**MIXING AND LOADING:** When mixing, loading or applying this product, wear long-sleeved shirt, long pants, socks, shoes, goggles and chemical resistant gloves.

The mixing and loading of spray mixtures into the spray equipment must be carried out on an impervious pad (i.e., concrete slab, plastic sheeting) large enough to catch any spilled material. If spills occur, contain the spill by using an absorbent material (e.g., sand, earth or synthetic absorbent). Dispose of the contaminated absorbent material by placing in a plastic bag and following disposal instructions on this label. Triple rinse empty containers and add the rinsate to the mixing tank.

**Cleaning of Equipment:** When cleaning equipment, do not pour the wash-water on the ground; spray or drain over a large area away from wells and other sources.

**IMPORTANT:** DO NOT allow spray mist to contact vegetables, flowers, ornamental plants, shrubs, trees, and other desirable plants. DO NOT pour spray solution near these plants. DO NOT broadcast apply to centipede, St. Augustine, Carpetgrass, Dichondra lawns, desirable Bentgrass or Clover as injury will occur. Using a tank-type sprayer and following the recommended rates above, "spot-treatments" can be made in such sensitive type lawns to kill undesirable weeds. DO NOT apply to areas underlaid by roots of desirable trees and shrubs.

**STORAGE & DISPOSAL**

**STORAGE:** Store in a cool, dry place away from fertilizers, seeds, insecticides, or fungicides. Keep in original container and preferably in a locked storage area. **DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash.

[THE FOLLOWING TEXT WILL BE USED ONLY ON PRODUCTS PACKAGED WITH A HOSE-END SPRAYER ATTACHMENT]

**ASSEMBLY INSTRUCTIONS:** 1) Remove cap and foil liner from bottle. 2) Place siphonage tube into bottle. 3) Turn sprayer off by turning on/off valve 1/4 turn. Securely tighten sprayer attachment on bottle. 4) Screw hose onto hose end sprayer attachment.
