Torrance, CA 90501

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 192-175."
 - b. Add the phrase "This product contains petroleum distillates" below the ingredient statement on the front panel.
3. Submit a 1-year storage stability study within 15 months from the date of registration.
4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Dexol Borer Killer provides an effective way to kill wood boring insects and prevent newly hatched larvae from entering and destroying your valuable trees and shrubs.

TO APPLY, mix the recommended amount of **Dexol Borer Killer** with water and apply as directed below. Do not apply to fruit bearing trees and shrubs not specified on this label. Consult your State Agricultural Extension Service Specialist for proper time to treat in your area.

Peach Tree Borer: Apply at the rate of 3.8 fl.oz. **Dexol Borer Killer** per gallon water. Apply to flowering trees and shrubs of the **Genus Prunus** as a trunk spray before newly hatched larvae enter the tree. Apply as a coarse, low pressure spray. Thoroughly wet all bark areas from ground level to scaffold limbs. Do not allow spray contact with any fruit.

Dogwood Borer, Lilac Borer, Ash Borer and Rhododendron Borer on Shrubs and Trees such as Dogwood, Elm, Lilac, Juniper, Ash, Sycamore, Cottonwood, Poplar, Ornamental Flowering Fruit Trees, Hemlock, Taxus, Locust, Willow, Hickory, Maple, Oak, & Rhododendron: Apply at the rate of 1-1/3 fl.oz. per 1 gallon water. Apply as a coarse, low pressure spray. Thoroughly wet all bark areas from ground level to scaffold limbs.

Elm Bark Beetle: To prevent the adult beetle from overwintering in uninfested trees and to reduce beetle populations in disease-free areas, apply at the rate of 5-1/3 fl.oz. **Dexol Borer Killer** per gallon of water to the bottom 9 feet of trunk. wet the trunk thoroughly but do not spray to runoff. Care should be taken to apply the spray right to the base of the root flare. Applications can be made from spring to the early fall.

Prevention of Branch and Twig Feeding on High Value Elm Trees: To reduce twig and branch feeding on uninfested trees deemed to be high in value, apply a 0.5% chlorpyrifos water spray (5-1/3 fl.oz. **Dexol Borer Killer** per gallon of water) to the tree crown. Applications should be made in the spring or early summer using a sprayer that will give thorough coverage to the tree crown.

STORAGE & DISPOSAL

STORAGE: Store in a cool, dry place. Keep in original container and preferably in a locked storage area inaccessible to children and pets.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

WARNING: Causes eye irritation. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with skin, eyes or clothing.

BEST AVAILABLE COPY

Avoid breathing vapors or spray mist. Wash thoroughly after handling and before eating or smoking. Avoid spraying food crops. Wash contaminated clothing before reuse. Keep children and pets off treated areas until this material has dried completely. Food utensils such as teaspoons and measuring cups should not be used for food purposes after use with pesticides.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Do not induce vomiting because of possible aspiration hazards. Call a physician immediately. **If Inhaled:** Remove victim to fresh air. Apply artificial respiration if indicated. **If On Skin:** Remove contaminated clothing. Wash affected areas with plenty of soap and water. **If In Eyes:** Flush eyes with plenty of water. Call a physician if irritation persists.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not apply directly to water. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes.

This product is highly toxic to bees exposed to direct treatment or residues on plants. Protective information may be obtained from your Cooperative Agricultural Extension Service.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame.

NOTICE: Buyer assumes all responsibility of safety not in accordance with directions.
