Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Change the label by revising the EPA Registration Number to read, "EPA Reg. No. 192-188."
3. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This product is for use on plants grown in and around the home as directed below. Do not apply this product to sites or areas not listed or prohibited on this label.

This product has been carefully designed to provide an optimal balance of pesticide effectiveness and low phytotoxicity (harmfulness to plants). Dexol Dormant & Summer Oil Spray II does not poison insects. Instead, it impedes the respiratory processes of eggs, larvae, and other insect life forms, causing hypoxia, i.e., suffocation. The great advantage of this physical mechanism is that insects cannot develop resistance to the product.

SHAKE WELL BEFORE USE. Apply as a thorough cover spray wetting pests and all plant parts. Unless otherwise directed, fill spray tank with 1/2 the required amount of water. Add the recommended amount of Dexol Dormant & Summer Oil Spray II and finish filling spray tank with water.

PLANT RESPONSE PRECAUTIONS: DO NOT apply this product when temperatures exceed 90°F within 24 hours after treatment. DO NOT apply this product to plants within 30 days before or after using sulfur. DO NOT apply to plants that are stressed due to drought, disease or drying winds. DO NOT apply to Maidenhair ferns, Cocos Palms, Red Maple or non-woody plants unless specified on this label. DO NOT apply to broadleaved evergreens or palms when freezing or near freezing temperatures may be expected. May cause discoloration of Blue Spruce. Do not use in combination with products containing Captan
