DEXOL® Gopher Killer Pellets 2

Rodenticide

For Use Against Pocket Gophers In Home Lawns

READY-TO-USE

ACTIVE INGREDIENT:

Zinc Phosphide 2.0%

OTHER INGREDIENTS: 98.0%

TOTAL 100.0%

KEEP OUT OF REACH OF CHILDREN

CAUTION

ACCEPTED

DEC 21 2005

See Back Panel For Additional Precautionary Statements.

NET CONTENTS 1 LB (454 g)

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 192-205

Precautionary Statements

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if swallowed or inhaled. Keep away from humans, domestic animals, and pets. Avoid eye or skin contact. Do not breathe dust. Avoid contamination of feed or food-stuffs. Avoid contact with acids.

FIRST AID

Have the product label with you when calling a poison control center or doctor, or going for treatment. For further medical information call the National Pesticide Information Center toll-free number 1-800-585-7378.

Any person applying zinc phosphide products and experiencing signs and symptoms such as nausea, abdominal pain, tightness in the chest, or weakness, should be seen by a physician immediately.

If Swallowed:	<ul style="list-style-type: none"> • Immediately call a Poison Control Center or Physician, or transport the patient to the nearest hospital. • Do not drink water. • Do not administer anything by mouth or make the patient vomit unless advised to do so by a physician.
If on Skin or Clothing:	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor immediately for treatment advice.
If inhaled:	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. • Call a poison control center or doctor immediately for treatment advice.
If in Eyes:	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor immediately for treatment advice.

ENVIRONMENTAL HAZARDS

This product is toxic to birds and other wildlife. Do not allow pellets to be exposed on soil surface. Do not apply where runoff is likely to occur. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.

Notice: It is a Federal offense to use any pesticide in a manner that results in the death of a member of an endangered species. The use of this product may pose a hazard to Federally designated endangered/threatened species. Suggested measures to protect endangered species in your county may exist in an EPA "Interim Measures" pamphlet. You may call EPA's Endangered Species Hotline, (800) 447-3813, to find out if an "Interim Measures" pamphlet exists for your county and have one sent to you. You can also consult your local county extension office or pesticide state lead agency to determine whether they have imposed any requirements in your area to protect endangered and threatened species.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

READ THE LABEL: Read this entire label and follow all use directions and use precautions.

Use Restrictions: For use against pocket gophers in home lawns. Do not apply in gardens and areas where food or feed may be contaminated. **Only apply the bait underground.** Collect and bury all dead animals found above the ground. This product is to be used in manual applications only. Do not apply this product by use of an artificial burrow builder.

Specific Directions for Pocket Gophers: Burrowing pocket gophers (Thomomys spp. and Geomys spp.) throw out low, fan shaped mounds on either side of their underground tunnel. These lateral tunnels coming to the surface are on the flat side of the fan and are plugged with soil. To locate underground runways: Use a metal rod, a strong smooth stick or other suitable instrument to probe the ground 10-15 inches away from fan-shaped gopher mounds. Begin probing on the flat side of the fan. When the main runway has been entered, the probe will drop about 2 inches due to decreased resistance from the soil. Using a long-handled spoon or mechanical probe, drop one teaspoon of Dexol Gopher Killer Pellets 2 into the main runway at each baited point. Cover the opening with sod, a rock, or soil to exclude light. Take care not to cover bait with soil. Depending upon mound density, make two to five bait placements per burrow system. Recover and bury all spilled pellets.

STORAGE & DISPOSAL

STORAGE: Store only in original container, in a dry place inaccessible to children and pets. **DISPOSAL: If empty:** Do not reuse empty container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY: Buyer assumes all responsibility for safety and use not in accordance with directions and precautions.
