Wonder

Your laundry needs Wonder bleach:

For the broad range of laundry problems, no other detergent additive can give a cleaner, brighter wash.

Pretreat stains and soils: Stubborn stains may be soaked for 5 minutes in a solution of ¼ cup of bleach to 1 gallon of cool sudsy water.

Removing stains: For stubborn stains due to coffee, tea, ink, grass, fruit, scorch, mildew, etc., mix ¼ cup of bleach in 1 quart of water. Use porcelain, glass or rubber container. Soak stained area for 5 minutes—rinse thoroughly. Repeat if necessary. If brown spots are left after removing rust or ink stains, they can usually be removed with lemon juice or vinegar. Dry in sunlight.

Sort laundry by color and fabrics: Separate whites from colors, light colors from dark ones. Avoid bleaching wool, silk, mohair, leather, spandex, non-fast colors and flame retardant cotton fabrics.

For age yellowed nylons: Mix 2 tablespoons of bleach to one gallon of warm water, add 1 teaspoon of household vinegar. Soak nylon for 15 minutes. Repeat if necessary. Rinse thoroughly.

Add bleach and detergents: Bleach may be added to the wash water before laundry is put in or, for best results, dilute with a quart of water and add 5 or 6 minutes after the wash cycle has begun. Use the recommended amount of bleach. For heavily soiled items or very large loads, add slightly more.

Directions for household use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Disinfection of bath tubs, showers, kitchen sinks: Prepare a disinfecting solution by thoroughly mixing 1.5 oz. of this product with 1 gallon of water to provide approximately 600 ppm available chlorine by weight. Clean surfaces in the normal manner. Prior to use, rinse all surfaces thoroughly with the disinfecting solution, maintaining contact with the solution at least 10 minutes. Do not rinse surfaces with water after treatment and do not soak overnight.

To sanitize your laundry:

In soaking auids: Thoroughly mix 5 oz. of this product to 10 gallons of wash water to provide 200 ppm available chlorine. Wait 5 minutes, then add soap, or detergent. Immerse laundry for at least 11 minutes prior to starting the wash/rinse cycle.

In washing auids: Thoroughly mix 5 oz. of this product to 10 gallons of wash water containing clothes to provide 200 ppm available chlorine. Wait 5 minutes, then add soap, or detergent and start the wash/rinse cycle.

- Regular Top Loading Automatic 1 cup
- Large Top Loading Automatic 1½ cup
- Front Loading Automatic ½ cup
- Hand Laundry (2 gallons sudsy water) ¼ cup
