Contents: 1 Gallon.

PRECAUTIONS IN USE

CAUTION!

AVOID PROLONGED OR REPEATED inhalation of mist and contact with skin. In case of contact with skin or eyes, flush with plenty of water. For eyes get medical attention. Keep away from open flames. Wash thoroughly with soap and water after handling and before eating or smoking. Do not contaminate feed, water, or feedstuffs. If swallowed, induce vomiting immediately and get medical attention. Air pipe is antidotal.

DECONTAMINATE AND IDENTIFY EMPTY CONTAINERS. Do not reuse for any purpose. Decontaminate containers by rinsing thoroughly with water and detergent. Empty containers by breaking and burying fragments in isolated areas. Dispose of residue in a way as not to constitute a hazard, or contaminate potable water supplies.

GENERAL DIRECTIONS

1½ CLODRIN Ready-to-use backsucker solution is a specially prepared solution for use on all animal backrubs and face rubbers for the control of horn flies and face flies on lactating dairy animals and beef animals. No feed-off period is necessary when used on beef animals. Do not apply regularly to calves under 6 months of age. Beef and cattle should not be treated as they may show hypersensitivity to organic phosphates.

Use 1 gallon for each 20 linear feet of backrub and rubber at regular intervals, or as needed. Clamp face rubber in like manner. For automatic or mechanical back rubbers and face rubbers recharge the reservoir as needed.

Animals should not face or rubbers for best face fly control.
