CAUTION: For use on surfaces where flies breed. Apply to surfaces where flies breed. Apply to surfaces where flies breed.

KEEP OUT OF REACH OF CHILDREN

GENERAL DIRECTIONS

RABON Insecticide is suitable for use in conventional hydraulic sprayers or low pressure knapsack sprayers.

USE AND APPLICATION DIRECTIONS

RESIDUAL SURFACE SPRAY: Mix 1 gallon of RABON Insecticide in 25 gallons of water (1% concentration) and apply as an over-all application to ceilings and walls of dairy barns, livestock sheds, calf barns, hog barns and other farm buildings.

Other areas where flies congregate, such as around garbage dumps and corrals, should be sprayed thoroughly. Repeat applications as fly populations warrant. Extreme infestations may necessitate increasing the dosage to 2 gallons RABON Insecticide per 25 gallons of water. Applications should be made to the point of run-off. One gallon of spray should treat 500 to 1000 sq. ft. of surface area.

LARVICIDE: Mix 1 gallon of RABON Insecticide with 25 gallons of water (1% concentration) and apply 1 gallon of solution for every 100 square feet of droppings under poultry on wire or in cages, or apply around manure, or garbage.

DILUTION TABLE

	RABON Insecticide in Water		
	1 gal.	5 gal.	25 gal.
Residual Fly Control	6 oz.	26 oz.	1 gal.
Larvicide	6 oz.	26 oz.	1 gal.
