GENERAL DIRECTIONS

Dormant Superior Spray Oil is an emulsifiable mineral oil used as a dormant spray for the control of certain insect pests attacking apples and pears. Apply as a dilute spray, using conventional spraying equipment.

USE AND APPLICATION DIRECTIONS

Before mixing, be certain that the spray tank is clean. To mix, add water to the level of the agitator shaft, and with the agitator in motion pour in the required amount of Dormant Superior Spray Oil. After mixing continue filling the tank and do not stop agitation until contents have been sprayed out. When combining with compatible fungicides, add and mix the fungicide before adding the oil.

<u>Crop and Insect</u>	<u>Amount Per Acre</u>	<u>Amount Per 100 Gallons Water</u>	<u>Timing</u>
<u>Apple and Pear</u>			
European Red Mite			Apple: Dormant, up to half inch green stage.
Brown Mite	12 gals	3 gals	
San Jose Scale			Pear: Dormant, up to green tip stage.
Lecanium Scale			

ACCEPTED

APR 15 1969

Do not use this material if it does not emulsify. Avoid spraying during or just prior to freezing weather. Spray only on days when conditions favor good coverage. Do not apply on apples later than the half-inch green stage, or to pears later than the green tip stage.

Because of possible phytotoxicity, pesticides such as Captan, Sulphur, Dylox, Summer Dinitros, Dichlone, Dinocap, Binapecryl, Phybam-S, Mercurials and others should not be combined with nor used within 4 or 5 days of an oil application. (Consult state recommendations and published compatibility charts for guidance.)

CAUTION! Harmful if swallowed. Avoid contact with skin. In case of skin contact, wash with soap and water. Avoid breathing spray mist. Avoid storage near feed and food products.

Do not contaminate streams, lakes, ponds, and irrigation water. Keep product away from fire, open flame, lighted electric bulbs and other sources of heat.

NOTICE OF WARRANTY

Shell Chemical Company makes no warranty of merchantability, fitness for any purpose, or otherwise, express or implied, concerning this product or its uses, which extend beyond the use of the product under normal conditions in accord with the statements made on this label.
