

SHELLCHLOR* 8

EMULSIBLE CONCENTRATE INSECTICIDE

(Contains 8 lb. Chlordane Per Gal.)

FOR USE BY PROFESSIONAL PEST CONTROL OPERATORS ONLY

ACTIVE INGREDIENTS	PERCENT BY WEIGHT
Technical Chlordane**	72.8
INERT INGREDIENTS	27.2
TOTAL	100.0

**Equivalent to 43.7% Octachloro-4, 7-methanotetrahydroindane and 29.1% related compounds.
EPA Reg. No. 201-316

TERMITE CONTROL

Add 1 gallon of SHELLCHLOR 8 Emulsible to 95 gallons of water (1.0% emulsion). Apply the 1.0% emulsion as follows:

1. SLAB-TYPE CONSTRUCTION

- Apply 1 gallon per 10 square feet as an overall pre-construction treatment under the slab and along attached porches or entrance platforms.
- Apply 2 gallons per 5 lineal feet to critical areas under the slab as pre-construction treatment, such as along the inside of the foundation walls and around utility entrances and interior partition foundation walls.

2. BUILDINGS WITH CRAWL SPACES

- Apply 2 gallons per 5 lineal feet in a trench along the outside of foundation walls, including entrance platforms and porches where the foundation is not more than 15-18 inches deep. If over 15-18 inches deep but not over 30 inches, apply 4 gallons per 5 lineal feet. Do not go deeper than the top of the footing.
- Apply 2 gallons per 5 lineal feet as a trenching application to critical areas under the house, such as along the inside of foundation walls and around piers and utility entrances. If trench is deeper than 15-18 inches but not over 30 inches, apply 4 gallons per 5 lineal feet. Do not go deeper than the top of the footing.
- Apply 1 gallon per 10 square feet of soil surface as a pre-construction treatment where the attached porches, entrance platforms, utility entrances have covering slab on fill of ground.
- Apply 1 gallon per 5 lineal feet of wall to voids in hollow masonry units of the foundation.

3. BUILDINGS WITH BASEMENTS

- Apply 1 gallon per 10 square feet as an overall pre-construction treatment under the basement flooring, attached porches, entrance platforms, utility entrances and similar situations where slab fill is at ground level.
- Apply 2 gallons per 5 lineal feet in a trench along the outside of foundation walls, including entrance platforms and porches where the foundation is not more than 15-18 inches deep. If over 15-18 inches deep but not over 30 inches, apply 4 gallons per 5 lineal feet. Do not go deeper than the top of the footing.
- Apply 2 gallons per 5 lineal feet as a trenching application to critical areas under the house, such as along the inside of foundation walls, porches, entrances and piers. If trench is deeper than 15-18 inches but not over 30 inches, apply 4 gallons per 5 lineal feet. Do not go deeper than the top of the footing.
- Treat all voids in hollow masonry units of the foundation at the rate of 1 gallon per 5 lineal feet of wall.

NOTE: For buildings with deep footing, dip trench 30 inches deep. Do not dig trench below level of footing.

*Shell Trademark

WARNING!

KEEP OUT OF REACH OF CHILDREN

See antidote and caution statements below.

Premises treated with 1.0% SHELLCHLOR 8 will give residual control for a minimum of five years.

DILUTION GUIDE OF SHELLCHLOR 8

Percent SHELLCHLOR 8 In Finished Formulation	Volume of Finished Formulation (Gallons)	Amount of SHELLCHLOR 8 Necessary
1%	48	2 quarts
	96	1 gallon
2%	1	2.7 ounces
	5	13.5 ounces
	48	1.0 gallon
3%	1	4 ounces
	5	20.2 ounces

CAUTION: COMBUSTIBLE MIXTURE WARNING

Keep out of reach of children. Harmful if swallowed. Contact with skin can cause toxic symptoms. Avoid breathing vapors or spray mist. In case of contact with skin, wash with soap and water. Wash thoroughly with soap and water after handling and before eating or smoking. Avoid contamination of feed and foodstuffs.

Keep out of any body of water. Toxic to fish, wildlife and birds. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not use in any manner not specified on this label.

ANTIDOTE

EXTERNAL - In case of spillage on skin wash promptly with soap and water.

INTERNAL - Emetic of 1 tablespoonful mustard in tumbler of water. Call a physician.

CONTAINER DISPOSAL

Rinse equipment and containers and dispose of wastes by burying in non-crop lands away from water supplies. Containers should be disposed of by punching holes in them and burying with wastes, or by burning. Keep out of smoke.
