FLYING INSECT KILLER

NEW!

Fast Killing Formula

CAUTION: KEEP OUT OF REACH OF CHILDREN.
(See other cautions on back panel)

No child under 51 months old was able to operate the valve following a standard protocol test.

DIRECTIONS: To spray hold can upright, insert finger into large opening in the protrusion on the side of the top. Point finger away from body and push button down.

KILLS	HOLD CAN TWO FEET FROM ALL OBJECTS BEING SPRAYED.
Flies, Mosquitoes, Gnats and Flying Moths: Indoors	Close doors and windows and spray upward in a sweeping motion for 8 to 10 seconds in an average (10' x 12') room. Leave room closed for 15 minutes before re-occupying.
Roaches, Crickets, Waterbugs, Silverfish, Spiders, Wasps and Centipedes: Indoors	Spray directly on insects where possible. Thoroughly spray hiding places such as cracks, crevices, spider webs, around pipes, under refrigerator, under sinks. For silverfish, also spray in storage areas and bookshelves.
Ants: Indoors and Outside	Spray ants on trails, hills, and at points of entry such as window sills, openings around pipes, and door jambs. Spray directly on as many ants as possible.
Fleas and Ticks: Indoors	Spray all hiding places, including floors and floor coverings, cracks and crevices, particularly in the unoccupied sleeping quarters of the pet. Repeat treatment as often as necessary and hit as many insects as possible with spray. Do not spray directly on pets.

When treating enclosed areas, do not remain in treated areas. Ventilate the area after treatment is completed.

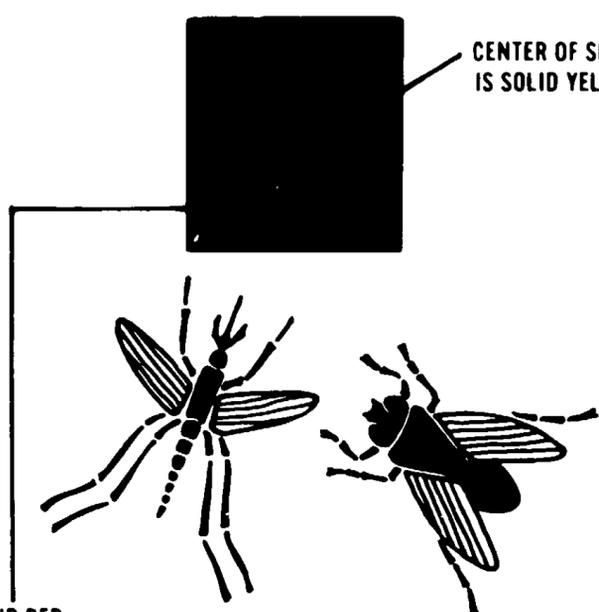

CAUTION: HARMFUL IF SWALLOWED, INHALED OR ABSORBED THROUGH THE SKIN. Avoid prolonged breathing of vapor. Wash thoroughly with soap and water after handling and before eating or smoking. Do not contaminate utensils, feed, water or food-stuffs. Keep out of the reach of children. If swallowed, induce vomiting immediately and get medical attention. Atropine is antidotal. Do not spray directly on skin or on animals. Remove birds and pets and cover fish bowls and aquaria before spraying room.

Do not use in edible products areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

WARNING: Contents under pressure, high temperature may burst container. Do not set or store container on radiators, stoves, or anyplace where temperatures exceed 120 F. Do not puncture container or throw into fire.

ACTIVE INGREDIENTS: 2,2-dichlorovinyl dimethyl phosphate, 0.70%;
Residual Compound, 0.02%;
INERT INGREDIENTS: 99.28%; TOTAL, 100.00%.
