CENTER OF SHELL EMBLEM IS SOLID YELLOW

SOLID RED

GENERAL DIRECTIONS

Prior to applying the GEL, brush away dust and dirt from the area on the animal to be treated. The GEL may be applied by hand or soft cloth. For best results apply as directed every second or third day depending on insect populations.

USE DIRECTIONS

TO CONTROL	REMARKS
FACE FLIES	Apply a thin film of the GEL to the head area paying particular attention to around the nostrils and eyes, however, avoid direct contact with the eye itself.
HOUSE FLIES	
STABLE FLIES	Apply a thin film to the legs and flanks leaving no unprotected area. More frequent applications may be necessary if the legs are exposed to high grass or water.
BITING GNATS	Apply a thin film to the head, neck, belly, and forelegs. Be sure to apply the GEL both inside and outside surface of the ears

Note: To protect minor cuts, scratches, and abrasions from flies, apply a thin film of the GEL around and lightly over the wound area without coming in direct contact with the open flesh. Do not apply to open cuts requiring professional service.

CAUTION: Harmful if swallowed. For use on horses only. May cause irritation of skin. Wash hands thoroughly with soap and water after use. Do not reuse container. Destroy when empty.

ACTIVE INGREDIENTS: (By weight) 2-chloro 1-(2,4,5-trichlorophenyl)vinyl dimethyl phosphate* 2.00%; Pyrethrins 0.09%; Technical piperonyl butoxide 0.18% (consists of 0.14% (butylcarbityl) (6-propylpiperonyl) ether and 0.04% related compound*); N-octyl bicycloheptene dicarboximide 0.30%; Butoxy polypropylene glycol 10.00%; Petroleum distillates 0.43%.

INERT INGREDIENTS: 87.00%.

*RABON® Insecticide.
