# RABON® INSECTICIDE FLEA AND TICK COLLAR FOR DOGS

DIRECTIONS: REMOVE THE COLLAR FROM THE PACKAGE, UNROLL, AND STRETCH TO ACTIVATE INSECTICIDE GENERATOR. Place the flea and tick collar around the dog's neck, adjust for proper fit, and buckle or snap in place. The collar must be worn loosely to allow for growth of the dog and to permit the collar to move about the neck. Generally, a properly fitted collar is one that when fastened will snugly slide over the dog's head. Leave 1 or 2 holes on the collar for extra adjustment and cut off and dispose of the extra length.

For continuous protection under normal conditions, replace the collar every 3 months. Under conditions where dogs are exposed to severe tick and flea infestations it may be necessary to replace the collar every 2 months. The dog should be examined from time to time and the collar replaced when mature tick or flea populations begin to increase.

The flea and tick collar may be worn with a regular collar.

CAUTION: Do not unroll collar until ready to use. Do not allow children to play with this collar. This collar is intended for use only as an insecticide generator (patents pending) and is not to be taken internally by man or animals.

Some animals may become irritated by the collar if it is applied too tightly. If this occurs loosen the collar. If irritation continues, remove the collar from the animal and consult your veterinarian.

FLEA CONTROL FOR UP TO 90 DAYS AND AIDS IN THE CONTROL OF TICKS

BEFORE USE STRETCH TO ACTIVATE
SEE BACK PANEL FOR COMPLETE USE DIRECTIONS

ACTIVE INGREDIENT	BY WEIGHT
2-Chloro-1-(2,4,5-trichlorophenyl) vinyl dimethyl phosphate	9.5%*
