INSTRUCTIONS

Roaches and Waterbugs—Thoroughly wet every crack and other hiding places infested with roaches. Also, spray immediately wherever water bugs may come out when they come out of hiding. Repeat as often as necessary to maintain effective control.

Silverfish—Follow same directions as for roaches, paying special attention to baseboards, areas behind shelving, bookcases and storage areas. Repeat as necessary.

Ants—Spray or paint ant trails and areas around door sills and window frames, around water pipes, heat ducts, electric outlets and baseboard where ants may come out into rooms. Repeat as often as necessary to maintain desired control.

Brown Dogticks in premises—Spray or paint where possible around baseboards, window and door frames, wall cracks and sleeping quarters of household pets. The frequency and extent of applications required will depend upon the amount of infestation of the infestation. Never use on sleeping quarters of animals. Never treat pets or animals with this preparation.

Centox Spray

A RESIDUAL AND CONTACT INSECTICIDE FOR THE CONTROL OF ROACHES, WATERBUGS, SILVERFISH, ANTS AND BROWN DOGTICKS IN PREMISES
