### DIRECTIONS FOR USE

Remove protective cap. Aim spray opening away from person. Push button to spray.

**FOR HOUSEFLIES, MOSQUITOES, AND GNATS:** Remove pets, birds and cover fish aquariums before spraying. Close all doors and windows. Point nozzle upward, direct the spray mist to all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed.

**WASPS:** Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places, contacting as many insects as possible. Repeat as necessary.

**FOR CRAWLING INSECTS:** Roaches, earwigs, grain mites, sowbugs, spiders and centipedes: Spray thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards, and storage areas. Spray directly on insects where possible. Repeat as necessary.

**ANTS:** Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

**WARNING:** Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130° F may cause bursting. Never throw container into fire or incinerator. Avoid contact with skin and eyes, in case of contact, flush with water. If irritation persists, get medical attention. Keep out of reach of children.
