

DIRECTIONS FOR USE
General Classification

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

PREMIER detergent/disinfectant has been designed specifically for hospitals, nursing homes, schools, food processing plants and other institutions where housekeeping is of prime importance.

DISINFECTION—To disinfect hard inanimate surfaces (such as walls, floors, table tops), add 1 ounce PREMIER detergent/disinfectant per gallon of water. Apply solution with mop, cloth, or sponge or mechanical sprayer so as to wet thoroughly. Allow to remain wet for 10 minutes and then let air dry.

To disinfect toilet bowls, flush toilet, add 1 ounce PREMIER detergent/disinfectant directly to the bowl water. Swab the bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Let stand for 10 minutes and flush.

For heavily soiled areas, a pre-cleaning step is required and recommended. Prepare a fresh solution for each use.

MILDEWSTAT—To control mold and mildew on pre-cleaned, hard non-porous surfaces (such as floors, walls, table tops) add 1 ounce PREMIER per gallon of water. Apply solution with a cloth, mop, or sponge making sure to wet all surfaces completely. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mildew growth reappears.

SANITIZATION—To sanitize previously cleaned and rinsed non-porous food contact surfaces, prepare 200ppm active quaternary solution by adding 1 ounce PREMIER to 3½ gallons of water. Rinse with potable water.

To sanitize immobile items (such as tanks, chopping blocks, counter tops), flood the area with 200ppm PREMIER solution or apply with a cloth or sponge, making sure to wet all surfaces completely for at least 60 seconds. Rinse with potable water. Let air dry. Prepare a fresh solution for each use.

To sanitize mobile items (such as drinking glasses, eating utensils) immerse in 200ppm PREMIER solution for at least 60 seconds making sure to immerse completely. Rinse with potable water. Remove and let air dry. Prepare a fresh solution daily or more frequently as soil is apparent.

PRECAUTIONARY STATEMENTS
Hazard to Human and Domestic Animals

DANGER

Keep Out of Reach of Children Causes severe eye and skin damage. Do not get in eyes, skin or on clothing. Harmful if swallowed. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food. Remove and wash contaminated clothing.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN

Probably mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

PREMIER

**CONCENTRATED DETERGENT, SANITIZER,
 FUNGICIDE, DISINFECTANT, DEODORIZER**

ACTIVE INGREDIENTS:

n-Alkyl (60% C₁₄, 30% C₁₆, 5% C₁₂,

5% C₁₃) dimethyl benzyl

ammonium chlorides 4.50

n-Alkyl (68% C₁₂, 32% C₁₄)

dimethyl ethylbenzyl

ammonium chlorides 4.50

INERT INGREDIENTS: 91.00

TOTAL 100.00

PREMIER is a phosphate free concentrated detergent/disinfectant which provides effective cleaning, deodorizing, disinfection, and sanitization. PREMIER detergent/disinfectant has been designed specifically for hospitals, nursing homes, schools, food processing plants and other institutions where housekeeping is of prime importance in controlling the hazard of cross contamination.

PREMIER when diluted at the rate of 1 ounce per gallon of water is an effective disinfectant against the organism *Pseudomonas aeruginosa* and meets all requirements for hospital use. When used as directed, PREMIER is formulated to disinfect inanimate hard surfaces such as walls, floors, sink tops, toilet bowls, tables, chairs, telephones and bed frames. For larger areas such as operating rooms, patient care facilities and restrooms, the product is designed to provide both general cleaning and disinfecting.

In addition, PREMIER deodorizes those areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, toilet bowls and any other areas which are prone to odors caused by microorganisms.

DISINFECTION—At 1 ounce per gallon dilution, PREMIER exhibits effective disinfectant activity against the following:

- | | |
|--------------------------------------|-------------------------------------|
| <i>Pseudomonas aeruginosa</i> PRD-10 | <i>B. evibacterium ammoniagenes</i> |
| <i>Escherichia coli</i> | <i>Streptococcus faecalis</i> |
| <i>Klebsiella pneumoniae</i> | <i>Shigella dysenteriae</i> |
| <i>Salmonella schuttmuelleri</i> | <i>Enterobacter aerogenes</i> |
| <i>Salmonella choleraesuis</i> | <i>Staphylococcus aureus</i> |

At this level the product is also fungicidal against the pathogenic fungi, *Trichophyton mentagrophytes*.

Virucidal* Activity: The product when used on environmental inanimate hard surfaces at 1 ounce per gallon of water exhibits effective virucidal* activity against Influenza A² — Asian (representative of the common flu virus group). Efficacy tests have demonstrated that PREMIER is an effective bactericide, fungicide, and virucide* in the presence of organic soil (5% blood serum).

MOLD AND MILDEWSTAT—PREMIER prevents and controls mold and mildew and the odors they cause on hard non-porous inanimate surfaces.

SANITIZATION—When used for sanitization of previously cleaned food equipment or food contact items limit active quaternaries to 200ppm. A potable water rinse is required.

PREMIER is an effective sanitizer when diluted in water up to 250ppm hardness (CaCO₃).

STORAGE AND DISPOSAL

- DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL
- OPEN DUMPING IS PROHIBITED
- DO NOT REUSE EMPTY CONTAINER

Pesticide Disposal—Pesticides that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticide or buried in a safe place.

Container Disposal—Triple rinse (or equivalent) and dispose in an incinerator or landfill approved for pesticide containers, or burn in a safe place.
