

Precautionary Statements

DANGER
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS.

Keep Out of Reach of Children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles, or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public waters unless in accordance with an NPDES permit. Do not contaminate water by cleaning of equipment or disposal of waste. For guidance contact your regional office of the EPA.

STORAGE AND DISPOSAL

Prohibitions

- Do not contaminate water, food, or feed by storage or disposal.
- Open Dumping is prohibited.
- Do not reuse empty container.

Pesticide Disposal

Pesticide that cannot be used, or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

Container Disposal

Dispose of in an incinerator or landfill approved for pesticide containers, bury in a safe place, or return to drum reconditioner.

General

Consult federal, state or local disposal authorities for approved alternative procedures such as limited open burning.

ACCEPTED

FEB 13 1981

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 211-46

ALGAE-CEN

Industrial Water Cooling Tower Algaecide

Concentrated Algaecide for industrial re-circulating water cooling towers. Helps keep water cooling tower systems clear and free of visible algae slimes.

ACTIVE INGREDIENTS:

n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides 5.0%
 n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chloride: 5.0%

INERT INGREDIENTS:

90.0%

TOTAL 100.00%

KEEP OUT OF REACH OF CHILDREN

DANGER

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN: Probably mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

Directions For Use

General Classification

It is a violation of federal Law to use this product in a manner inconsistent with its labeling

Algae-Cen Industrial Water Cooling Algaecide is designed to prevent algae slime formation in cooling tower systems.

Initial Dose: 1-2 gallons Algae-Cen to each 5,000 gallons of water contained in the system. Repeat until control is evident. When system is in control, add

Periodic Dose: 1-3 quarts Algae-Cen to each 5,000 gallons of water contained in the system every 7 days or sooner should visible growth appear. For best results, clean heavily contaminated systems before treatment with this product. If soap or anionic detergent is used, rinse thoroughly before charging with Algae-Cen. Apply Algae-Cen at a point in the system where uniform mixing will take place.

Do not be alarmed with the sudden appearance of organic debris in the system during the first week of operation. This is normal and is a good indication that Algae-Cen has effectively penetrated and dislodged dead organic material which tenaciously adheres to metal and wooden surfaces as living matter. This debris should be removed from the system to avoid clogging of screens and pipes.

When Algae-Cen is used as directed, it will aid in controlling and/or preventing the development of unsanitary slime conditions which are unsightly, produce foul odors and which are often the cause of equipment breakdown. Algae-Cen is compatible with virtually all corrosion inhibition additives, but should not be used in the presence of soap or other anionic detergents. Algae-Cen at use dilution is non-corrosive to inanimate hard surfaces.
