

## DIRECTIONS

For control of Hard-To-Kill Woody Plants and Weeds Such As: Oak, Hickory, Sassafras, Sumac, Wild Cotton, Trumpet Vine, Briars, Canada Thistle And Most Other Annual And Perennial Weeds on Non-crop land such as Right-of-Ways, Industrial Plants, Lumber Yards, Tank Farms, Storage Areas and Parking Lots.

**BROADCAST APPLICATION (Brush and Weeds):** Use 70 to 100 pounds per acre applied evenly over the infested area. Use a hand or mechanically operated seed or fertilizer spreader for even spreading. For small areas use 1.5 to 2.5 pound per 100 square feet.

**SPOT OR BASAL APPLICATION (Brush):** Use 1 to 2½ ounces per clump depending on size. Apply in a circle halfway between the trunk or clump center and the drip area. Use a small scoop or spoon or sift from a can or pail with holes punched in the bottom.

The toxic ingredient in URAB PELLETED is relatively soluble in water. URAB'S effectiveness in root killing is due to this solubility characteristic. Once URAB is spread on the soil, rain water dissolves it and carries it down into the deep root zone, killing roots as it goes and thus preventing regrowth. Because of the root killing ability of URAB, it is a highly effective control material for hard-to-kill weeds and brush.

# ARCADIAN

## URAB® PELLETED BRUSH AND WEED KILLER

For Control of Woody Plants and  
Deep-Rooted Weeds in Non-Crop Land

U. S. Patent No. 2,782,112

CODE 9950

**CAUTION:** Keep out of reach of children

For Additional Caution Information See Other Panel

USDA Reg. No. 218-470

### ACTIVE INGREDIENT:

Fenuron trichloroacetate [3-phenyl-1,  
1-dimethylurea trichloroacetate] 25%

INERT INGREDIENTS: 75%

ALLIED CHEMICAL CORPORATION  
DEPARTMENT AG  
40 RECTOR STREET, NEW YORK, N. Y., U.S.A.

URAB works best when adequate rainfall is available. In unusually dry periods, or periods of light rainfall, URAB will not be carried to the root area and the usual full killing power will not be noticed until there is enough rain to carry it to the roots. However, URAB will remain in the soil through some months of dry weather, ready to act whenever there is enough rain to make it effective.

**NOTE:** Do Not apply, allow to drift, or drain or flush equipment onto or near, croplands, lawns, trees or other desirable plants or to areas where their roots may extend. Do Not contaminate domestic or irrigation water supplies. Do Not allow contact with fertilizers, insecticides, fungicides or seeds. Application equipment should be thoroughly cleaned with a detergent and water to prevent corrosion. Equipment which has been used to apply this product should not be used for applying insecticides, fungicides, fertilizers or other agricultural chemicals as plant injury may result.

### CAUTION!

**HARMFUL IF SWALLOWED  
IRRITATING TO SKIN AND EYES**

**Do Not get on skin, in eyes, or on clothing.  
In case of contact, immediately wash skin  
with plenty of water: for eyes, wash with  
water for at least 15 minutes and get medi-  
cal attention.**

Follow directions carefully. Timing and method of application, weather and crop conditions, mixtures with other chemicals not specifically recommended, and other influencing factors in the use of this product are beyond the control of the seller. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
