

WARNING

May cause skin irritation. Harmful if swallowed. Do not take internally. Avoid inhaling spray mist. Avoid contact with skin, eyes or clothing.

This product will kill or seriously injure many desirable forms of vegetation. Do not apply directly to flowers, fruits, vegetables, grapes, ornamentals, cotton or other desirable plants. Do not use when there is hazard from drifting mists. (Coarse sprays are less likely to drift.)

Vapors from this product may injure susceptible plants in the immediate vicinity.

Avoid contamination of water used for domestic purposes and irrigation ditches. Excessive amounts of this product in the soil may temporarily inhibit seed germination and plant growth.

This product not for use on lawns.

This product is toxic to fish. Keep out of any body of water. Apply this product only as specified on this label.

Do not graze dairy animals on treated areas for 7 days after treatment.

Do not store near fertilizers, seeds, insecticides or fungicides.

Spray equipment used in applying this product should be thoroughly cleaned before using for any other purpose. Use repeated flushing with soap and warm water or suitable chemical cleaner. Rinse equipment and containers and dispose of wastes or spillage by burying in non-crop lands away from water supplies. Containers should be disposed by punching holes in them and burying with wastes. It is best to use a separate sprayer for application of insecticides and fungicides.

Riverdale WEDESTROY 2,4,5-T

Contains 4 Lbs. 2,4,5-T Esters

ACTIVE INGREDIENTS:

*Butyl Ester 2,4,5-Trichlorophenoxyacetic Acid 30.6%

**Isooctyl Ester 2,4,5-Trichlorophenoxyacetic Acid 11.6%

INERT INGREDIENTS 57.8%

TOTAL 100.0%

*Equivalent to 25.4% 2,4,5-Trichlorophenoxyacetic Acid

**Equivalent to 9.6% Trichlorophenoxyacetic Acid

Contains 3.14 lbs. 2,4,5-T Acid Per Gallon

CAUTION: KEEP OUT OF REACH OF CHILDREN

See additional Warnings on Side Panel

DIRECTIONS FOR USE

Use in non-crop areas as rangeland, pasture, fence rows, drainage ditch banks, around buildings, along roadways, power lines, right of ways, and other similar waste places.

Use 2-3 quarts WEDESTROY 2,4,5-T in 100 gallons of water. Apply spray when plants are in full leaf and actively growing. Thoroughly wet all foliage and bark. The actual volume needed will depend on the density and size of the brush. Best results are obtained by using high pressures and applying a minimum of 100 gallons of spray per acre. Repeat applications may be necessary to control hard to kill species.

For knapsack sprayers dilute 1/2 to 1 pint WEDESTROY 2,4,5-T in 5 gallons of water and apply as a drenching spray. These lower concentrations have been used successfully on the most susceptible woody plants like sassafras, cherry, and willow.

Brush is best controlled when less than six feet high. Brush taller than six feet is better controlled if cut and the stubble sprayed thoroughly with a solution of 2-3 quarts of WEDESTROY 2,4,5-T in 10 gallons of kerosene or fuel oil.

STUMP TREATMENT — Stump treatment at any time of the year is now possible with WEDESTROY 2,4,5-T. Use 2-3 pints in 10 gallons Diesel oil or kerosene and apply with knapsack sprayer equipped with a fan type nozzle. Spray tops and sides of stumps thoroughly. This treatment has reduced resprouting as much as 75% using a single application. Retreat the few resprouting stumps the following spring when sprouts are in full leaf.

DORMANT SPRAY — Use 2 quarts in 10 gallons fuel, diesel, kerosene or transformer oil. Spray trunks and brush from ground line to 3 ft. Apply spray to run-off point completely circling trunk. In large trees axe incisions are helpful.

SUSCEPTIBLE PLANTS

Alder	Cedar, salt	Elm	Herculesclub	Oak	Sagebrush	Sycamore
Aspen	Cherry, choke	Green briar	Hemlock	Osage, Orange	Sassafras	Tree of Heaven
American	Cherry, wild	Gum, black	Hornbeam	Pine	Silverberry	Trumpet vine
Crab Apple	Chinaberry	Gum, Sweet	Horsechestnut	Poison ivy	Skunkbrush	Tuliptree
Barberry	Cottonwood	Hackberry	Juneberry	Poison oak	Shadbush	Virginia creeper
Birch	Currant	Hawthorne	Juniper	Poplar	Snowberry	Walnut
Blackberry	Dogwood	Hazel	Locust, black	Prickly Ash	Spicebush	Willow
Buckbrush	Elderberry	Hickory	Locust, honey	Raspberry	Sumac	Winterberry
Catalpa	Elder, box	Honeysuckle	Mulberry	Rose Cherokee	Sweetfern	Witchhazel

RESISTANT PLANTS

Ash	Basswood	Beech	Maple, Red	Mesquite	Persimmon	Rhododendron	Spruce
