

DIRECTIONS FOR LOWE SEED CORN TREATER

Low Seed Corn Treater is especially formulated for use in the treatment of seeds for temporary protection against wireworms and seed corn maggots. Additional fungicidal protection is added to prevent seedling blight, damp-off or seed decay. Use full dosage of Low Seed Corn Treater on corn seed previously treated with a protective fungicide.

NOTE: The enclosed measuring spoon holds 1 oz. when heaping full; apply dry.

ON SEED CORN: For best results mix four ounces for each 50 lb. bag of seed. For mixing in planter box use following amounts needed for each box as follows:

For each bushel of Planter box capacity, (Consult dealer if in doubt) 4 oz.

ON MILO, GRAIN SORGHUM AND SORGHUM-SUDAN use 2 oz. on each 50 lb. bag of seed.

PRECAUTIONS: Do not feed treated seed to animals. Cover all feed supplies or remove from room before spraying. Do not use on edible portions of food crops.

NET WEIGHT 1 POUND

Do not feed treated foliage to animals being prepared for slaughter or to other animals including dairy cows, milk goats, etc. NOTE: Avoid contamination of feed and foodstuffs.

This product is toxic to fish and wildlife. Treated seeds exposed on soil surface will be hazardous to birds and wildlife.

Do not contaminate water by cleaning of equipment, or disposal of wastes.

Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place.

WARNING: Harmful vapor and dust may be absorbed through skin. Harmful if swallowed. Avoid breathing of spray mist, dust or vapor. May produce irritation of both eyes and skin. If powder or spray comes in contact with skin, wash thoroughly with soap and water. For eyes — flush for several minutes with clean water. If irritation persists consult your physician. Mixing of dust should be done only out of doors or in a well ventilated room. Do Not Use Treated Seed as Food or Feed.
