MCPP LOW VOLATILE ESTER

A SELECTIVE WEED KILLER

PRECAUTIONARY STATEMENTS HAZARD TO HUMANS AND DOMESTIC ANIMALS

CAUTION:

Avoid contact with skin, eyes or clothing. Harmful if swallowed. Avoid inhaling vapor or spray mist.

ENVIRONMENTAL HAZARD

Keep out of lakes, streams or ponds. Do not apply when weather conditions favor drift from target area.

Spray equipment used in applying this product should be thoroughly cleaned before using for any other purpose. Use repeated flushing with soap and warm water or suitable chemical cleaner. It is best to use a separate sprayer for application of insecticides and fungicides.

Do not contaminate water by cleaning of equipment or disposal of wastes.

This product will kill or seriously injure all susceptible forms of vegetation. Do not apply to flowers, fruits, vegetables, grapes, ornamentals, trees or other desirable plants. Do not use when there is hazard from drifting mist. Do not spray areas likely to drift. Vapors from this product may be injurious to susceptible plants in the immediate vicinity.

Avoid contamination of water used for drinking purposes and irrigation purposes. Excess of this product in the soil may be injurious to seed germination and plant growth.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

- PROHIBITIONS**
Do not contaminate water, food, or feed. Storage, disposal, or use near other pesticides and prohibited.
- PESTICIDE DISPOSAL**
Pesticide sprays should not be used on farm animals. Do not use in areas where they are prohibited.
- CONTAINER DISPOSAL**
Triple rinse. Do not reuse. Do not burn. Do not incinerate. Do not dump into water.
- GENERAL**

Especially useful for the control of surface-creeping broadleaf weeds such as clovers, chickweeds, stitchwort, ground ivy and knotweed on sports and ornamental turf, including golf greens, fairways and tees; as well as on home lawns and similar non crop areas.

ACTIVE INGREDIENTS

Isooctyl Ester of 2-(2-methyl-4-chlorophenoxy) Propionic acid 74.1%

INERT INGREDIENTS

25.9%

TOTAL

100.0%

Equivalent to 46% of 2-(2-methyl-4-chlorophenoxy) Propionic acid, or not less than 4.6 lbs. MCPPE per gallon.

GENERAL INFORMATION:
Useful herbicide for control of broadleaf weeds in action. One of the Volatile Ester is that can be used safely in Sessile, Arlington injured.

Common Chickweed (Ceratium vulgatum)
White Clover (Trifolium hederaceum)
Stitchwort (Stitchwort avicularis)

Application Rate

Established greens and fine turf lawns and fairways

Better weed control obtained with weekly applications. This is preferred, if there has been no previous application.

HOW TO APPLY

40 gals. water per boom type sprayer may be treated several days before or 24 hours after.

WHEN TO APPLY

Apply in summer when weeds are actively growing.

CAUTION

Do not apply in drought conditions or damage to turf. Do not apply in August or later.

COMBINATION WEEDS

Control improved by use of MCPPE Low Volatile Ester AM 4.

CAUTION

Do not apply to fine turf. Do not apply to fine turf.

Conditions

See State Agricultural Experiment Station for details. See label for use.

Follow directions

for weather and materials not specified in the label. Buy only from the manufacturer.

Do not use

on lawns.

MCPP LOW VOLATILE ESTER

A SELECTIVE WEED KILLER

Especially useful for the control of surface creeping broadleaf weeds such as clover, chickweeds, stitchwort, ground ivy and knotweed on sports and ornamental lawns including golf greens, fairways and tees, as well as on home lawns and similar non-crop areas.

ACTIVE INGREDIENTS

MCPP Low Volatile Ester	74.1
Inert	25.9
TOTAL	100.0

ACCEPTED

KEEP OUT OF REACH OF CHILDREN

CAUTION

GENERAL INFORMATION MCPP has proven to be a very effective selective herbicide for the control of surface creeping or prostrate weeds listed below. Although relatively slow acting, one of the advantages of Riverdale MCPP Low Volatile Ester is that it is safer to the turf grasses than 2,4-D. It can be used safely on most turf varieties, but use caution on Seaside, Arlington and Congressional types which may be injured.

WEEDS CONTROLLED

Common Chickweed (*Stellaria media*), Mouse-ear Chickweed (*Cerastium vulgatum*), Red Clover (*Trifolium pratense*), White Clover (*Trifolium repens*), Ground Ivy (*Glechoma hederacea*), Stitchwort (*Stellaria graminea*), Knotweed (*Polygonum viviparum*).

Application Rate on	Per 1 000 Sq Ft	Per Acre
Creeping broadleaf weeds	0.5 to 1.0 pints	2 to 4 pints
Prostrate weeds	1.0 to 2.0 pints	4 to 8 pints

For best results, MCPP Low Volatile Ester should be applied in late summer or early fall. It is most effective when applied to weeds that are actively growing. Do not apply to dry, dormant lawns. Do not apply to lawns that have been recently fertilized with nitrogen. Do not apply to lawns that have been recently mowed. Do not apply to lawns that have been recently watered. Do not apply to lawns that have been recently irrigated. Do not apply to lawns that have been recently sprayed with other herbicides.
