	<p>NOTICE OF PESTICIDE: <input type="checkbox"/> Registration <input checked="" type="checkbox"/> Reregistration (under FIFRA, as amended)</p>	<p>Term of Issuance: Unconditional</p>	
	<p>Name of Pesticide Product: Riverdale 4% Bromacil Granular Weed Killer</p>		
<p>Name and Address of Registrant (include ZIP Code): Mr. Russell F. Sawyer Riverdale Chemical Company 425 West 19th Street Glenwood, IL 60425-3699</p>			
<p>Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.</p>			
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.</p> <p>Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>Based on your response to the Bromacil Reregistration Eligibility Decision (RED) document, EPA has reregistered the product listed above. Please make the following revisions noted below before releasing the product for shipment.</p> <p>1. In response to your objection to incorporate the recommended User Safety language, please include the following required text under the heading, Hazards to Humans and Domestic Animals.</p> <p>Wash thoroughly with soap and water after handling.</p> <p>2. Revise the dermal Statement of Practical Treatment to read as follows:</p> <p>IF On Skin: Wash with plenty of soap and water. Get medical attention.</p>

EPA Reg. No. 228-232

3. In an effort to clarify the maximum use rate, modify your maximum rate statement by adding the following text.

The total use of this product and other bromacil containing products cannot exceed the maximum use rate of 12 lbs of active ingredient (ai) per acre per year.

Enclosed is a copy of your label stamped "Accepted with Comments." This action is taken under the authority of section 4(g)(2)(c) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Submit three (3) copies of your final printed labeling before you release the product for shipment.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing.

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Flush with plenty of water. Get medical attention if irritation persists.
IF ON SKIN: Wash with plenty of soap and water.

ENVIRONMENTAL HAZARDS

Do not apply directly to water, or to areas where surface water is present or to inter-tidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Entry Restrictions

Do not enter or allow others to enter treated area until dusts have settled.

Application Restrictions

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

NON-CROP WEED CONTROL - INDUSTRIAL USE ONLY

Riverdale 4% Bromacil Granular is a non-selective herbicide for controlling a wide range of annual perennial weeds and grasses. It is recommended only for non-cropland areas such as rights-of-way for pipeline, utility, highway, and railroads; and industrial areas such as airports, petroleum tank farms, lumberyards, and plant sites. 200 to 300 pound applications of Riverdale 4% Bromacil Granular per acre usually result in a non-productive condition of the soil for a period of a year or more. The duration of non-productivity is dependent upon rainfall, soil type, and other conditions.

Riverdale 4% Bromacil Granular should be applied as furnished with a seed spreader, a fertilizer spreader, or with any equipment which will distribute the chemical uniformly over the area to be treated. For the control of annual and most perennial weeds and grasses, apply Riverdale 4% Bromacil Granular at the rate of 200 to 400 pounds per acre; on smaller plots, .5 to .69 pound per 100 square feet (12 lbs. Bromacil A.I. per acre per year). Repeat spot treatment may be required when deep-rooted perennial weeds are present. To obtain the best results, Riverdale 4% Bromacil Granular should be applied to the ground where it will be absorbed by the roots. Applications made early in the season have been found to give results superior to applications at a later seasonal date. Riverdale 4% Bromacil Granular may, however, be applied at any time of the year. Maximum effectiveness in arid regions is obtained when application is made just prior to the rainy season. Users should consult state agricultural experimental stations or extension service weed specialists for recommendations as to use in their particular area.

IMPORTANT; (NOT FOR RESIDENTIAL USE). Do not apply on or near valuable woody or herbaceous plants or on areas where their roots may extend because of possible injury to such plants. Thoroughly clean spreading equipment with a suitable chemical cleaner before using for other purposes (or do not use same spreading equipment for other purposes). Do not use on croplands or any land to be used for subsequent cropping. Keep animals off treated areas.
