PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Causes eye irritation. Do not get in eyes. Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing dust and contact with skin or clothing. The granular formulation may cause skin sensitization reactions in certain individuals. Use eye protection and protective clothing such as coveralls, a long-sleeved shirt and impermeable gloves when handling this product. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Do not allow children or pets on lawn until $\frac{1}{2}$ " of water has been applied to lawn and water has dried (or, if wet conditions persist, until 24 hours have passed).

STATEMENT OF PRACTICAL TREATMENT

- IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Call a physician.
- IF SWALLOWED: Call a physician or Poison Control Center. Drink promptly a large quantity of milk, egg white, gelatin solution, or, if these are not available, large quantities of water. Avoid alcohol.
- IF ON SKIN: Wash with plenty of soap and water. Get medical attention. If irritation persists.
- IF INHALED: If breathing difficulty occurs, move individual to fresh air and get medical attention.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift or runoff from treatment areas may be hazardous to aquatic organisms in neighboring aquatic sites. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read all directions carefully before applying.

SPRING VALLEY'S LOW-N 20-5-5 with TeamTM is a high quality fertilizer product that combines turf food to feed the lawn and a selective pre-emergence herbicide to control the below listed annual grasses.

SPRING VALLEY'S LOW-N 20-5-5 with TeamTM is a pre-emergence herbicide which is applied to established turfgrasses for the control of annual bluegrass (poa annua), smooth and hairy crabgrass, goosegrass (silver crabgrass or crowfoot), barnyardgrass (watergrass) and green and yellow foxtail. SPRING VALLEY'S LOW-N 20-5-5 with TeamTM controls these annual weeds by killing their seeds as they germinate. Apply before these annual weeds begin to germinate since it does not control established weeds.

1/10/25

When SPRING VALLEY'S LOW-N 20-5-5 with TeamTM is applied as directed, the following established turfgrasses are tolerant:

Kentucky bluegrass
Perennial ryegrass
Centipedegrass

Fescue
Zoysiagrass
Bermudagrass

St. Augustinegrass
Bahigrass

SPRING VALLEY'S LOW-N 20-5-5 with TeamTM will not harm most nearby established ornamental trees and shrubs.

PRECAUTIONS

Apply SPRING VALLEY'S LOW-N 20-5-5 with TeamTM to the turf prior to the germination of weed grasses since SPRING VALLEY'S LOW-N 20-5-5 with TeamTM will not control established weeds. SPRING VALLEY'S LOW-N 20-5-5 with TeamTM may thin established annual bluegrass (poa annua) turfs and fine-leaved fescues at rates above 112 pounds per acre (1.5 pounds active ingredient). SPRING VALLEY'S LOW-N 20-5-5 with TeamTM should not be applied in the spring to turfgrass planted the previous fall. In bermudagrass areas that have been overseeded with winter grasses, a spring application of SPRING VALLEY'S LOW-N 20-5-5 with TeamTM may thin the overseeded grasses. Because of varying cultural practices, SPRING VALLEY'S LOW-N 20-5-5 with TeamTM should not be used on putting greens. SPRING VALLEY'S LOW-N 20-5-5 with TeamTM should not be used on dichondra. SPRING VALLEY'S LOW-N 20-5-5 with TeamTM should not be applied to newly sprigged areas of bermudagrass, St. Augustinegrass or Centipedegrass until these turfs are well established.

APPLICATION DIRECTIONS

Rates, Frequency and Timing of Application.

Successful pre-emergence control of the annual grass weeds listed on this label requires proper timing of application.

Apply SPRING VALLEY'S LOW-N 20-5-5 with TeamTM approximately one to two weeks prior to the germination of annual grass weeds. All summer annual grasses do not germinate at the same time. If application timing does not coincide with the normal germination period of any of the annual grass weeds listed on this label, weed control results may be erratic or poor. Optimum weed control performance will be obtained if treated areas are irrigated soon after application.

Any cultural practices that disturb the soil, such as aerification or verticutting, should be done prior to application of SPRING VALLEY'S LOW-N 20-5-5 with TeamTM.

Spring germination summer annual grasses-crabgrasses, foxtails and barnyardgrass.

One 50# bag of SPRING VALLEY'S LOW-N 20-5-5 with TeamTM will cover 14,500 sq. ft. or 150# per acre. Application at this rate will supply 0.66# of actual nitrogen per 1000 sq. ft. and 21 of actual TeamTM per acre. Do not reseed 12 to 15 weeks after application.

A. Northern (cool season) turfgrasses

For pre-emergence control, apply 112 to 150 pounds per acre (1.5 to 2 pounds active ingredient) of SPRING VALLEY'S LOW-N 20-5-5 with TeamTM per acre in the Spring one to two weeks prior to the onset of conditions favorable for annual weed grass seed

2075

germination.

B. Southern (warm season) turfgrasses

For pre-emergence control, apply 150 to 225 pounds (2 to 3 pounds active ingredient) of SPRING VALLEY'S LOW-N 20-5-5 with Team™ per acre in the late Winter or early Spring one to two weeks prior to the onset of conditions favorable for annual weed grass seed germination.

In areas of the United States when germination of the annual weed grass species continues for extended periods of time, a second application of SPRING VALLEY'S LOW-N 20-5-5 with Team™ at the recommended rate may be made 8 to 10 weeks after initial treatment for continued control.

SPRING VALLEY'S LOW-N 20-5-5 with Team™ Per Acre	Lbs. Per 1000 Sq. Ft.
112 pounds	2.5 pounds
150 pounds	3.4 pounds
225 pounds	5.1 pounds

STORAGE AND DISPOSAL

STORAGE: Store in original container only. In case of leak or spill, contain material and dispose of waste.

PESTICIDE DISPOSAL: Do not contaminate water, food, or feed by storage disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

WARRANTY

Riverdale warrants that this herbicide conforms to the chemical description on its label. When used in accordance with label directions under normal conditions, this herbicide is reasonably fit for its intended purposes. Since timing, method of application, weather, plant, and soil conditions, mixtures with other chemicals, and other factors affecting the use of this product are beyond our control, no warranty is given concerning the use of this product contrary to label directions or under conditions which are abnormal or not reasonably foreseeable. The user assumes all risks of any such use.
