

MAY 23 1995

Russell F. Sawyer
 Riverdale Chemical Company
 425 West 194th Street
 Glenwood, IL 60425-1584

Dear Mr. Sawyer:

SUBJECT: Label Amendment
 Riverdale Veteran TM 720 Herbicide
 EPA Registration No. 228-295
 Your Application Dated November 18, 1994
 to Remove Product from WPS Scope and Adding
 Other Non-Commercial Sites

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, is acceptable with the following provisions:

- Under the Mixing and Application Statement remove the word "rinsed" and replace it with the word "decontaminated", per the 2,4-D exposure reduction agreement.

A stamped copy is enclosed for your records. Please submit (one) final printed copy for the above mentioned label before releasing the product for shipment.

Sincerely yours,

Joanne I. Miller
 Product Manager (23)
 Fungicide-Herbicide Branch
 Registration Division (7505C)

with COMMENTS
In EPA Letter Dated

MAY 23 1995

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

228-295

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION

Harmful if swallowed. If swallowed, drink 1 or 2 glasses of water and induce vomiting by sticking finger down back of throat. Never induce vomiting or give anything by mouth to an unconscious person. Avoid breathing spray mist. Avoid contact with skin, eyes, or clothing. In case of contact, wash exposed skin with plenty of soap and water; for eyes, flush with water for 15 minutes and get medical attention.

When mixing, loading, or applying this product or repairing or cleaning equipment used with this product, wear eye protection (face shield or safety glasses), chemical resistant gloves, long sleeved shirt, long pants, socks and shoes. For aerial applicators, in enclosed cockpits and applicators applying this product from a tractor that has a completely enclosed cab, eye protection is not required.

Wash hands, face and arms with soap and water as soon as possible after mixing, loading, or applying this product. Wash hands, face and arms with soap and water before eating, smoking, or drinking. Wash hands and arms before using toilet. After work, remove all clothing and shower using soap and water. Do not reuse clothing worn during the previous day's mixing and loading or application of this product without cleaning first. Clothing must be kept and washed separately from other household laundry. Remove saturated clothing as soon as possible and shower.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and nontarget plants. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

Most cases of groundwater contamination involving phenyl herbicides such as 2,4-D have been associated with mixing/loading and disposal sites. Caution should be exercised when handling 2,4-D pesticides at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing or transferring this pesticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Apply this product only as directed on label.

For use on plants in non-crop and non-forest areas only. Not for use on trees, crops, or other plants being grown for sale or other commercial use, or for commercial seed production or for the production of timber or wood products, or for research purposes.

Following directions apply to all uses of VETERAN 720 Herbicide. Do not contaminate irrigation ditches or water used for domestic purposes. Do not apply this product through any type of irrigation system.

SENSITIVE CROP PRECAUTIONS

VETERAN 720 Herbicide may cause injury to desirable trees and plants, particularly beans, cotton flowers, fruit trees, grapes, ornamentals, peas, potatoes, soybeans, sunflowers, tobacco, tomatoes, and other broadleaf plants when contacting their roots, stems or foliage. These plants are most sensitive to VETERAN 720 Herbicide during their development or growing stage. FOLLOW THE PRECAUTIONS LISTED BELOW WHEN USING VETERAN 720 HERBICIDE.

Do not treat areas where either possible downward movement into the soil or surface washing may cause contact of VETERAN 720 Herbicide with the roots of desirable plants such as trees and shrubs.

Avoid making application when spray particles may be carried by air currents to areas where sensitive crops and other desirable plants are growing. Always make application where there is some air movement in order to determine the direction and distance of possible spray drift. Leave an adequate buffer zone between the area to be treated and desirable sensitive plants. Coarse sprays are less likely to drift out of target area.

Do not use aerial equipment to apply VETERAN 720 Herbicide when sensitive crops and plants are growing in the vicinity of area to be treated.

Special nozzles designed to produce minimal amounts of fine spray particles. Drift control agents and equipment designed to minimize fine spray particles may be used.

Do not graze farm animals on treated areas within 7 days after application.

Remove meat animals from treated areas 3 days prior to slaughter.

Do not cut grass for hay within 30 days of application.

To avoid injury to skin, the pants/equipment used to apply VETERAN 720 Herbicide should be thoroughly cleaned (see PROCEDURE FOR CLEANING SPRAY EQUIPMENT on back panel) before reusing to apply any other chemicals.
