

APR 15 1996

Mr. Russell F. Sawyer  
Riverdale Chemical Co.  
425 West 194th St.  
Glenwood, IL 60425

Dear Mr. Sawyer:

Subject: Addition of Rangeland and Pastures  
Riverdale Veteran® 10G  
EPA Reg. No. 228-309  
Your submission dated March 19, 1996

The amendment referred to above, submitted in connection with registration under FIFRA sec. 3(c)(7)(A), is acceptable since you:

1. Submitted and/or cited all data or other material required for registration/reregistration of your product under FIFRA sec. 3(c)(5) or FIFRA section 4 when the Agency requires all registrants of similar products to submit such data.

2. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

Robert J. Taylor

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS  
WARNING**

Harmful if swallowed. Avoid breathing vapors. Dust may cause eye irritation. Avoid contact with skin, eyes and clothing. In case of contact, immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists.

Do not store near feed or food stuffs.

**ENVIRONMENTAL HAZARDS**

Do not apply directly to water or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water by the cleaning of equipment or disposal wastes. Do not contaminate water when disposing of equipment washwaters.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**IMPORTANT**

Do not contaminate irrigation ditches or water used for domestic purposes.

Veteran® 10G Herbicide may cause injury to desirable trees or plants, particularly beans, cotton, flowers, fruit trees, grapes, ornamentals, peas, potatoes, soybeans, sunflowers, tobacco, tomatoes, and other broadleaf plants when contacting their roots, stems, or foliage.

Do not treat areas where the possible downward movement into the soil or surface washing may cause contact of herbicide with the roots of desirable plants such as trees and shrubs.

To avoid injury to desirable plants, equipment used for VETERAN 10G Herbicide should be thoroughly cleaned before reuse to handle or apply any other chemicals.

VETERAN 10G Herbicide may temporarily stunt or eliminate the growth of grass in the treated areas.

**WEEDS AND BRUSH CONTROLLED**

VETERAN 10G Herbicide, when applied in accordance with this label, will give control or growth suppression of many BIENNIAL and PERENNIAL broadleaf weeds as well as many WOODY brush and vine species including:

**BIENNIAL and PERENNIAL BROADLEAVES**

Bindweed, Field  
Blueweed, Texas  
Bursage, Skeletonleaf  
(Bur Ragweed, Povertyweed)  
Bursage, Woolyleaf  
(Lakewood)  
\* Fern, Bracken  
Knapweed, Russian

Nightshade, Silverleaf  
Ragwort, Tansy  
Sowthistle, Perennial  
\* Spurge, Leafy  
Starthistle, Yellow  
Thistle, Artichoke  
Thistle, Bull  
Thistle, Canada

\* Noted weeds require higher rates of VETERAN 10G than other listed weeds. See APPLICATION RATES AND TIMING section of this label.

**WOODY BRUSH and VINES**

Creosotebush  
Elm, Siberian  
Kudzu  
Olive, Autumn  
Persimmon, Eastern

Plum, Sand  
Saltcedar  
Sumac  
Tarbush

*Pasture and rangeland grasses may be grazed or harvested for feed (green or dry) for lactating dairy animals 60 days following treatment. There is no waiting period between treatment and grazing for animals other than lactating dairy animals. Remove meat animals from treated areas 30 days prior to slaughter.*

**APPLICATION RATES AND TIMING:** VETERAN 10G Herbicide may be applied using standard ground or air granular application equipment for broadcast or spot treatments. VETERAN 10G Herbicide is activated when there is sufficient moisture to move the herbicide into the root zone of plants to be controlled. Application may be made any time when soil is not frozen. However, best performance usually occurs when treatments are made in the Spring just before or during active growth of the weeds and brush. CONSULT YOUR LOCAL OR STATE AUTHORITIES FOR THE BEST TIMING OF APPLICATION.

Application rates are given below. Use the higher level of listed rate range when treating dense vegetative growth.

- For spot treatments, use 1/2 to 1 pound of product per 1000 square feet for control of listed BIENNIAL and PERENNIAL weeds.
- For spot treatments, use 1 to 2 pounds of product per 1000 square feet for noted (\*) BIENNIAL and PERENNIAL weeds.
- For spot treatments, use 2 pounds of product per 1000 square feet for control of listed WOODY BRUSH and VINES. Uniformly spread granules over the area where the plant roots are growing.

In most cases, these treatments will not control weed seedlings which germinate one to two years after treatment. Once the effect of the herbicide has been lost, a follow-up program for seedling control or other cultural practices should be instituted.

Do not apply more than 20 pounds of VETERAN 10G per treated acre per year.

**STORAGE AND DISPOSAL**

**PROHIBITIONS:** Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Store in original container in a well-ventilated area away from fertilizer, feed or foodstuffs and separated from other pesticides.

**PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent) plastic pails. For paper or plastic bags, or for fiber drums with liners, completely empty into application equipment by shaking and tapping container. Offer pails or drums for recycling or reconditioning or puncture before disposal. Dispose of bags, liners, or punctured containers in sanitary landfill or by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

**LIMITATION OF WARRANTY AND LIMITATION OF LIABILITY**

**NOTICE:** Read this Limitation of Warranty and Limitation of Liability before buying or using this product. If the terms are not acceptable, return the product at once, unopened, and the purchase price will be refunded. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Riverdale or seller. All such risks shall be assumed by buyer or user. Riverdale warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use, under normal use conditions, subject to the risks described above. **Riverdale makes no other express or implied warranty of fitness or of merchantability or any other express or implied warranty.** In no event shall Riverdale or seller be liable for any incidental, consequential or special damages resulting from the use or handling of this product. **The exclusive remedy of the user or buyer, and the exclusive liability of Riverdale or seller for any and all claims, losses, injuries or damages (including claims based on breach of warranty, contract, negligence, tort, strict liability or otherwise) resulting from the use or handling of this product, shall be the return of the purchase price of the product or, at the election of Riverdale or seller, the replacement of the product.** Riverdale and seller offer this product, and buyer and user accept it, subject to the foregoing limitations of warranty and limitation of liability, which may not be modified by any oral or written agreement.
