OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

Mr. Martin Deubler Nufarm Americas Inc. 150 Harvester Drive, Suite 200 Burr Ridge, IL 60527

MAY 16 2011

Subject: Notification per PR Notice 98-10 – Adding optional fertilizer marketing language for the

residential product label due to state-required action of NYSDEC

Product Name: Tri-Power N.Y. Weed and Feed

EPA Reg. No. 228-330

Application, Dated March 28, 2011

Dear Mr. Deubler:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the subject product.

The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10. The label submitted with the application has been date-stamped "Notification" and will be placed in our records.

If you have any questions, please contact Beth Benbow at 703-347-8072 or email at benbow.bethany@epa.gov

Sincerely,

Kathryn V. Montague, Product Manager 23

Herbicide Branch

Tri-Power® N.Y. Weed and Feed

EPA REG. No. 228-330 (Residential only) Label Notification per PR Notice 98-10

Dear Ms. Montague:

Nufarm Americas Inc. would like to add language to subject's product label. The proposed language is consistent with PR Notice 98-10, Section II (Labeling Notifications), Subsection E (Changes in Packaging and Related Labeling Statements). We have added an optional fertilizer marketing language for the residential product label due to state-required action of NYSDEC.

To process this request please find enclosed the following:

- Application for Pesticide Registration EPA form 8570-1
- Revised labeling with areas of change clearly identified (1 copy)
- Revised labeling clean (1 copy)
- CD containing the proposed labeling, file name: 000228-00330.20110328.PRN98-10.pdf

If you should have any questions regarding this matter, please feel free to call me at (630) 455-2037 or email me at martin.deubler@us.nufarm.com

Sincerely,

Martin Deubler

# PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION / PRECAUCIÓN

Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin, or clothing. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Remove immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

FIRST AID				
IF ON SKIN OR CLOTHING	<ul> <li>Take off contaminated clothing.</li> <li>Rinse skin immediately with plenty of water for 15 to 20 minutes.</li> <li>Call a poison control center or doctor for treatment advice.</li> </ul>			
IF IN EYES	<ul> <li>Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.</li> <li>Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>Call a poison control center or doctor for treatment advice.</li> </ul>	•		
HOT LINE NUMBER  Have the product container or label with you when calling a poison control center or doctor, or going for treatment.  You may also contact 1-877-325-1840 for emergency medical treatment information.				

#### **ENVIRONMENTAL HAZARDS**

This pesticide may adversely affect non-target plants. Do not apply directly to water. Drift or runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Runoff of this product will be reduced by avoiding applications when rainfall is forecasted to occur within 48 hours. Do not contaminate water when disposing of equipment washwaters or rinsate.

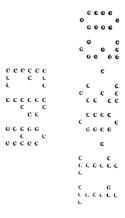

#### **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ ENTIRE LABEL BEFORE USING THIS PRODUCT. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS. This product is a stable mixture of three herbicides. It is for use on residential turf.

This product may be used on Bahia, common Bermuda, Blue Grass, Centipede, Fescue, Rye, St. Augustine, and Zoysia grass. DO NOT USE on Dichondra and Carpet grass. DO NOT USE this product where desirable clovers are present or allow the product to "wind drift" onto flowers, vegetables, ornamentals, shrubs, trees or other desirable plants. Do not apply this product in a way that will contact any person or pets, either directly or through drift. Keep people and pets out of the area during application.

#### OTHER USE PRECAUTIONS

Do not apply directly to or near water, storm drains, gutters, sewers or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays and oceans. Do not apply when windy. Apply this product directly to your lawn or garden and sweep any product landing the driveway, sidewalk, gutter or street, back onto the treated area. To prevent product runoff, do not over water the treated area to the point of runoff or apply when raining or rain is expected that day.

<u>6</u>

This product is designed to promote lush green growth in lawns and controls many broadleaf weeds such as:

Beggartick	Galinsoga	Pigweed	Thistle
Bindweed	Goatsbeard	Plantain	Thornapple
Black medic	Goldenrod	Poison hemlock	Toadflax
Buckhorn	Ground ivy	Poison ivy	Veronica
Burcucumber	Halbert-leaved saltbush	Poison oak	Vetch
Burdock	Hawkweed	Prickly lettuce	Whitebrush
Buttercup	Healall	Puncture vine	White top
Canada thistle	Heartleaf drymary	Purslane	Wild aster
Carpetweed	Hempnettle	Ragweed	Wiild carrot
Catsear	Henbit	Red clover	Wild garlic
Chervil	Hoary cress	Red root	Wild geranium
Chickweed	Honeysuckle	Red sorrel	Wild gooseberry
Chicory	Jimsonweed	Redstem	Wild jute
Cinquefoil	Knotweed	Sheep sorrel	Wild lettuce
Clover	Kochia	Shepherdspurse	Wild marigold
Cocklebur	Lambsquarter	Sicklepod	Wild onion
Croton	Mallow	Smartweed	Wild petunia
Daisy	Marshelder	Sneezeweed	Wild radish
Dandelion	Mexican poppy	Sowthistle	Wild sage
Dock	Morningglory	Spanishneedle	Wintercress
Dogfennel	Mustard	Speedwell	Witchweed
Dragonhead mint	Nettle	Spurge	Woodsorrel
English daisy	Oxalis	Spurweed	Yarrow
Fat hen	Pennycress	Stinging nettle	Yellow charlock
Fennel	Pennywort	Stinkweed	Yellow daisy
Florida pusley	Peppergrass	Stitchwort	Yellow rocket
Frenchweed	Pepperweed	Sunflower	

WHEN TO APPLY: Best results are obtained when weeds are growing actively in spring or early fall. Avoid contact with desirable shrubs, plants, vegetables, or flowers; especially when applying with a rotary (spinner) type spreader. Do not reseed for at least 3 to 4 weeks after application. Do not apply to newly seeded or sodded lawn until after 3 mowings. For optimum results (1) Avoid mowing 1 to 2 days before and after application; (2) Apply when grass is moist (after a rain sprinkling or dew); (3) Avoid unnecessary disturbances, including watering of treated areas for 48 hours after application. Watering will wash off weed killing material; and (4) Avoid applying if rainfall is expected within 48 hours following treatment. If lawn is heavily overrun with weeds or if adverse low moisture conditions prevail and weeds are in a state of poor health, a second application may be made 30 days after initial treatment; however, do not exceed the maximum yearly broadcast application rate (1.5 lbs a.e. MCPP-p per acre). Do not exceed specified rates because damage to turf may occur.

**NOTE:** When applying to Southern Grasses - under conditions of inadequate moisture, high temperature and high humidity, overapplication may cause minor transitory discoloration on Centipede and St. Augustine grasses. It is recommended that during hot, dry conditions, application rates should be reduced 50% to avoid possible dehydration or browning of grass.

**HOW TO APPLY:** This 20 pound (or 18 pound) (or 16 pound) bag treats 5,000 square feet. Apply evenly with a lawn spreader as a one pass application. A two pass application, criss-crossing the area at half the rate each time is also acceptable.

The following settings are <u>approximate</u> for applying contents of this package at a suggested rate of 4 pounds (3.6 pounds for 18 pound bag) (3.2 pounds for 16 pound bag) per 1,000 square feet. Settings are based on an average walking speed. Reduce setting for slower speed; raise setting for higher speed. Check your spreader on 250 square feet and adjust to apply at the rate of 1 pound (.9 pound for 18 pound bag) (.8 pound for 16 pound bag) per 250 square feet.

Restrictions: Do not apply more than 2 applications per year with a minimum retreatment interval of 30 days.

SPREADER SETTINGS ONE PASS APPL	ICATION:			c e
	<u>MAKE</u>	SETTING	6 C C C C C C C C C C C C C C C C C C C	C C C C
	Central Calibrated	5	eeeee	cccc
	Cyclone Broadcast	3-3/4	cccc	c
	Jackson	5		ι .
	Sears Broadcast	3		بدددرزر
	Sears	5		c c
	Scotts Calibrated	4		6 6

Sweep (do not wash) all fertilizer materials from surfaces immediately after application, because certain fertilizer ingredients can cause permanent stains. Wash out spreader after each use and allow it to dry thoroughly. Treat any exposed metal spreader areas with oil to reduce corrosion.

(The following paragraph is mandatory in Kentucky when the nitrogen analysis does not provide 1 pound of nitrogen/1,000 square feet; otherwise, this information is optional.)

A lawn typically will utilize 1 to 4 pounds of nitrogen per 1,000 square feet per growing season. When used as directed, this product will supplement your regular fertilizer program by providing  $\frac{*(No. \text{ of } lbs.)}{}$  pounds of nitrogen per 1,000 square feet (optional  $P_2O_5$  and  $K_2O$  levels) and herbicide to control listed weeds. Please consult your local extension office for questions regarding a regular fertilizer program.

\*Based on Inert fertilizer claimed.

### Environmental Benefits

(Grasscycling Logo)

Besides increasing property values, did you know a well-maintained lawn provides the following benefits to your home and environment:

Grass clippings and yard waste are approximately 20% of the volume in our nation's landfills. To do your part to reduce this amount, leave grass clippings on your lawn. Increased mowing height and frequency will produce smaller grass clippings that will decompose more readily so nutrients go back into your lawn.

- √ A 50' x 50' lawn produces enough oygen for a family of 4 every day
- √ Reduces Glare & Reduces Noise
- √ Traps Dust, Smoke Particles & Other Pollutants
- √ Purifies Water & Modifies Temperature
- √ Improves Soil Condition & Controls Erosion

#### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE STORAGE:** Always use original container to store pesticides and keep any bags containing unused product in locked storage area inaccessible to children and domestic animals. Do not store near other feed or foodstuffs. To prevent cross-contamination, do not store near open containers of fertilizer, seed or other pesticides.

**PESTICIDE DISPOSAL:** If empty - Do not reuse this container. Place in trash or offer for recycling if available. If partly filled - If product cannot be used as directed, or offered to others for their use, call your local solid waste agency for disposal instructions. Never place unused product down any indoor (including toilet) or outdoor (including sewer) drain.

For nonrefillable bags of granular or dry formulation

**CONTAINER DISPOSAL:** Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment, then offer for recycling if available, or dispose of empty bag in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

O

#### Solid dilutable formulations in nonrefillable plastic containers

CONTAINER DISPOSAL: Rigid, Nonrefillable Containers small enough to shake (less than 50 lbs.): Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities. Plastic cofifafrees are also disposable by incineration, or, if allowed by State and local authorities, by burning. If burned stay out of smoke. \*\*o \*\*c \*\*c\*\*
