Subject: EPA Reg. 228-366 / Razor Herbicide Supplemental Label

The Supplemental label is acceptable provided you make the following changes to the label:

- 1) Incorporate the sub-label into the master label during the next round of printing of the master label.
- 2) Change "areas such as" to "areas including".

A stamped copy of the label is enclosed for your records. You must submit one copy of the final printed label before you release the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA. Your release for shipment of the product constitutes acceptance of these conditions. If you have any questions please call Erik Kraft at 703-308-9358 or email at Kraft.Erik@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Jim Tompkins".

Jim Tompkins
Product Manager 25
Herbicide Branch
Registration Division (7505P)

SUPPLEMENTAL LABEL

RAZOR® Herbicide

EPA Reg. No. 228-366
08-25-2009

LABEL REVISIONS: Expand Use Sites for Industrial, Recreational and Public Areas and Add Use Instructions for Bromus Species and Medusahead in Pasture and Rangeland.

READ AND FOLLOW THE ENTIRE LABEL BOOKLET FOR THIS PRODUCT BEFORE PROCEEDING WITH THE USE DIRECTIONS CONTINUED IN THIS SUPPLEMENTAL LABELING. "Label" as used in this supplemental labeling refers to the label booklet for this product and this supplemental.

DIRECTIONS FOR USE

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN ANY MANNER INCONSISTENT WITH ITS LABELING.

This label must be in the possession of the user at the time of application.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

ALL APPLICABLE DIRECTIONS, RESTRICTIONS AND PRECAUTIONS IN THE PRODUCT LABEL BOOKLET MUST BE FOLLOWED, INCLUDING STATEMENTS PERTAINING TO THE WORKER PROTECTION STANDARDS, ON THE EPA REGISTERED LABEL.

INDUSTRIAL, RECREATIONAL AND PUBLIC AREAS

When applied as directed for "NONCROP USES", under conditions described, this product controls annual and perennial weeds, woody brush and trees listed on this label growing in areas such as:

Airports	Parking Areas	
Around Farm, Ranch, Commercial or Industrial Structures	Parks	
Around Ornamental Gardens	Petroleum & Other Tank Farms	
Around Ornamental Trees & Shrubs	Pipeline, Power, Telephone & Utility Rights-of Ways	
Ditch Banks	Preplant to Turf & Ornamental Plants
Driveways & Ramps	Pumping Installations
Dry Ditches & Canals	Railroads
Fences & Fencerows	Schools
Golf Courses	Sidewalks
Gravel or Ground Bark Mulches	Similar Sites
Habitat Restoration & Management Areas	Storage Areas
Highways & Roadsides (including aprons, medians, guardrails & shoulders)	Uncropped Farmstead Areas
Industrial Plant Sites	Utility Substations
Lanes, Trails & Access Roads	Vacant Lots & Wastelands
Lumberyards	Warehouse Areas
Manufacturing Sites	Other public areas and similar industrial or non-crop areas
Office Complexes		

For specific rates of application and instructions for control of various annual and perennial weeds and woody brush and trees, see the "WEEDS CONTROLLED" section of the label.

This product may be applied with recirculation sprayers, shielded applicators, or wiper applicators in any noncrop site specified on the label. See the Selective Equipment part of the "APPLICATION EQUIPMENT and TECHNIQUES" section of the label for information on proper use and calibration of this equipment.

BROMUS SPECIES AND MEDUSAHEAD IN PASTURE AND RANGELANDS

Bromus Species: This product may be used to treat downy brome (*Bromus japonicas*), soft chess (*Bromus mollis*) and cheatgrass (*Bromus secalinus*) found in industrial, rangeland and pasture sites. Apply 8 to 16 fluid ounces of product per acre on a broadcast basis. For best results, treatment should coincide with early seedhead emergence of the most mature plants. Delaying the application until this growth stage will maximize the emergence of other weedy grass flushes. Applications should be made to the same site each year until seed banks are depleted and the desirable perennial grasses are able to become reestablished on the site.

Medusahead: To treat medusahead, apply 16 fluid ounces of this product per acre as soon as plants are actively growing, and prior to the 4-leaf stage. Applications may be made in the fall or spring.

Application Equipment and Techniques: Applications may be made using ground or aerial equipment. Aerial applications for these uses may be made using fixed wing or helicopter equipment. For aerial applications, apply in 2 to 10 gallons of water per acre. For applications using ground equipment, apply in 10 to 20 gallons of water per acre.

When applied as directed there are no grazing restrictions.

NOTICE

Read the "WARRANTY DISCLAIMER" and "LIMITATION OF LIABILITY" in the label booklet for this product before using this product. Those terms apply to this supplemental labeling and if those terms are not acceptable, return the product unopened at once.
