PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear long pants, long-sleeved shirt, socks and shoes when applying this product. After using this product, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water; also before eating, drinking, chewing gum or using tobacco. The maximum number of broadcast applications per treatment site is 2 per year. Do not allow people (other than applicator) or pets on treatment area during application. Do not enter treatment areas until dust has settled.

FIRST AID	
IF IN EYES	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
HOT LINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-877-325-1840 for emergency medical treatment information.	

ENVIRONMENTAL HAZARDS

Drift or runoff may adversely affect nontarget plants. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ ENTIRE LABEL BEFORE USING THIS PRODUCT. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.

This product is a stable mixture of three herbicides. It is for use on residential turf.

This product may be used on Bahia, common Bermuda, Blue Grass, Centipede, Fescue, Rye, St. Augustine, and Zoysia grass. DO NOT USE on Dichondra and Carpet grass. DO NOT USE this product where desirable clovers are present or allow the product to "wind drift" onto flowers, vegetables, ornamentals, shrubs, trees or other desirable plants.

WEEDS CONTROLLED

This product is designed to promote lush green growth in lawns and control many broadleaf weeds such as:

Alder	Buckhorn	Creeping jenny	Goatsbeard	Locoweed
Annual yellow sweet clover	Buckhorn plantain	Crimson clover	Goldenrod	Lupine
Artichoke	Bulbous buttercup	Croton	Ground ivy	Mallow
Aster	Bull nettle	Cudweed	Gumweed	Marshelder
Austrian fieldcress	Bull thistle	Curly dock	Hairy bittercress	Matchweed
Bedstraw	Burdock	Curly indigo	Hairy fleabane	Mexicanweed
Beggartick	Burning nettle	Dandelion	Hawkweed	Milk vetch
Biden	Bur ragweed	Dead nettle	Healall	Milkweed bloodflower
Bindweed	Burweed	Dock	Heartleaf drymary	Mugwort
Bird vetch	Buttercup	Dogbane	Hedge bindweed	Morningglory
Bitterweed	Canada thistle	Dogfennel	Hedge mustard	Mouseear chickweed
Bitter wintercress	Carolina geranium	Elderberry	Hemp	Musk thistle
Black-eyed Susan	Carpetweed	English daisy	Henbit	Mustard
Black medic	Catchweed bedstraw	Fall dandelion	Hoary cress	Narrowleaf plantain
Black mustard	Catsear	False dandelion	Hoary plantain	Narrowleaf vetch
Blackseed plantain	Catnip	False flax	Hoary vervain	Nettle
Blackseed plantain	Chickweed	False sunflower	Honeysuckle	Orange hawkweed
Blessed thistle	Chicory	Fiddleneck	Hop clover	Oxalis
Blue lettuce	Cinquefoil	Field bindweed	Horsenettle	Oxeye daisy
Blue vervain	Clover	Field pansy	Horsetail	Parsley-piert
Box elder	Cockle	Flea bane (daisy)	Indiana mallow	Parsnip
Bracted plantain	Cocklebur	Flixweed	Ironweed	Pearlwort
Brassbuttons	Coffeebean	Florida betony	Jewelweed	Pennycress
Bristly oxtongue	Coffeeweed	Florida pusley	Jimsonweed	Pennywort
Broadleaf dock	Common chickweed	Frenchweed	Kochia, Knapel	Peppergrass
Broadleaf plantain	Common mullein	Galinsoga	Knotweed	Pepperweed
Broomweed	Common sowthistle	Garlic mustard	Lambsquarter	Pigweed
	Corn Chamomile	Goathead	Lespedeza	

(continued)

4/8

Residential

This product is designed to promote lush green growth in lawns and control many broadleaf weeds such as (continued):

Pineywoods bedstraw	Rough cinquefoil	Spiny cocklebur	Tumble pigweed	Wild onion
Plains coreopsis	Rough fleabane	Spotted catsear	Tumbleweed	Wild parsnip
Plantain	Roundleaved marigold	Spotted knapweed	Velvet leaf	Wild radish
Poison hemlock	Rush	Spotted spurge	Venice mallow	Wild rape
Poison ivy	Russian pigweed	Spurge	Veronica	Wild strawberry
Poison oak	Russian thistle	Spurweed	Vervain	Wild sweet potato
Pokeweed	St. Johnswort	Stinging nettle	Vetch	Wild vetch
Poorjoe	Scarlet pimpernel	Stinkweed	Virginia buttonweed	Willow
Povertyweed	Scotch thistle	Stitchwort	Virginia creeper	Witchweed
Prairie	Sheep sorrel	Strawberry clover	Virginia pepperweed	Woolly morningglory
Prickly lettuce	Shepherdspurse	Sumac	Wavyleaf bullthistle	Woodsorrel
Prickly sida	Slender plantain	Sunflower	Western clematis	Woolly croton
Primrose	Smallflower galinsoga	Sweet clover	Western salsify	Woolly plantain
Prostrate knotweed	Smartweed	Tall nettle	White clover	Wormseed
Prostrate pigweed	Smooth dock	Tall vervain	White mustard	Yarrow
Prostrate spurge	Smooth pigweed	Tansy mustard	Wild mustard	Yellow rocket
Prostrate vervain	Sneezeweed	Tansy ragwort	Wild aster	Yellowflower
Puncture vine	Southern wild rose	Tanweed	Wild buckwheat	pepperweed
Purslane	Sowthistle	Tarweed	Wild carrot	and other broadleaf
Ragweed	Spanishneedle	Thistle	Wild four-o'clock	weeds.
Red clover	Spatterdock	Tick trefoil	Wild garlic	
Redroot pigweed	Speedwell	Toadflax	Wild geranium	
Red sorrel	Spiny	Trailing Crownvetch	Wild lettuce	
Redstem filaree	Spiny Amaranth	Tumble mustard	Wild marigold	

WHEN TO APPLY: Best results are obtained when weeds are growing actively in spring or early fall. Avoid contact with desirable shrubs, plants, vegetables, or flowers; especially when applying with a rotary (spinner) type spreader. Do not reseed for at least 3 to 4 weeks after application. Do not apply to newly seeded or sodded lawn until after 3 mowings. For optimum results (1) Avoid mowing 1 to 2 days before and after application; (2) Apply when grass is moist (after a rain, sprinkling or dew); (3) Avoid unnecessary disturbances, including water of treated areas for 48 hours after application. Watering will wash off weed killing material; and (4) Avoid applying if rainfall is expected within 48 hours following treatment. Possible retreatment in approximately 30 days may be necessary if lawn is heavily overrun with weeds or if adverse low moisture conditions prevail and weeds are in a state of poor growth. Do not exceed recommended rates because damage to turf may occur.

NOTE: When applying to Southern Grasses - under conditions of inadequate moisture, high temperature and high humidity, over-application may cause minor transitory discoloration on Centipede and St. Augustinegrasses. It is recommended that during hot, dry conditions, application rates should be reduced 50% to avoid possible dehydration or browning of grass.

HOW TO APPLY: This 16 pound bag should be used on 5,000 square feet. Apply evenly with a lawn spreader as a one pass application. A two pass application, criss-crossing the area at half the rate each time is also acceptable.

The following settings are approximate for applying contents of this package at a suggested rate of 3.2 pounds per 1,000 square feet. These settings are furnished only as a guide. Age, spreader condition, operating speed, and unevenness of terrain can cause variation in applied rates. Settings are based on an average walking speed. Reduce setting for slower speed; raise setting for higher speed. Check your spreader on 250 square feet and adjust to apply at the rate of .8 pound per 250 square feet.

SPREADER SETTINGS

ONE PASS APPLICATION: ⁹	MAKE	SETTING
	Central Calibrated	5
	Cyclone Broadcast	3-3/4
	Jackson	5
	Sears Broadcast	3
	Sears	5
	Scotts Calibrated	4

Sweep (do not wash) all fertilizer materials from surfaces immediately after application, because certain fertilizer ingredients can cause permanent stains. Wash out spreader after each use and allow it to dry thoroughly. Treat any exposed metal spreader areas with oil to reduce corrosion.

(The following paragraph is mandatory in Kentucky when the nitrogen analysis does not provide 1 pound of nitrogen/1,000 square feet; otherwise, this information is optional.)

A lawn typically will utilize 1 to 4 pounds of nitrogen per 1,000 square feet per growing season. When used as directed, this product will supplement your regular fertilizer program by providing *(No. of lbs.) pounds of nitrogen per 1,000 square feet (optional P₂O₅ and K₂O levels) and herbicide to control listed weeds. Please consult your local extension office for questions regarding a regular fertilizer program.

*Based on Inert fertilizer claimed.

Residential

Environmental Benefits

(Grasscycling Logo)

Besides increasing property values, did you know a well-maintained lawn provides the following benefits to your home and environment:

- Grass clippings and yard waste are approximately 20% of the volume in our nation's landfills. To do your part to reduce this amount, leave grass clippings on your lawn.
- Increased mowing height and frequency will produce smaller grass clippings that will decompose more readily so nutrients go back into your lawn.
- A 50' x 50' lawn produces enough oxygen for a family of 4 every day
- Reduces Glare & Reduces Noise
- Traps Dust, Smoke Particles & other Pollutants
- Purifies Water & Modifies Temperature
- Improves Soil Condition & Controls Erosion

STORAGE AND DISPOSAL

STORAGE: Always use original container to store pesticides and keep any bags containing unused product in a locked storage area inaccessible to children and domestic animals. To prevent cross-contamination, do not store near open containers of fertilizer, seed or other pesticides. Do not stack more than two pallets high.

DISPOSAL: If empty - Do not reuse this container. Place in trash or offer for recycling if available. If partly filled - If product cannot be used as directed, call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor (including toilet) or outdoor (including sewer) drain.

NOTICE: Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.

(RV081806N)

OPTIONAL SPREADER INSTRUCTIONS:

- (Illustration) For Drop Spreaders: First apply two strips at ends. Then apply product along the length of the lawn, overlapping very slightly and shutting off spreader when turning.
- (Illustration) For Rotary Spreaders: Apply in a circular path, starting on the outside and working toward the center, overlapping very slightly.

OPTIONAL LANGUAGE FOR DIFFERENT BAG SIZES:

XX pound bag should treat up to XX,XXX square feet.

The following note will not be part of the actual label copy.

NOTE: Guaranteed (fertilizer) Analysis and Spreader Settings will vary among various commercial fertilizer manufacturers. Chlorine declaration is optional except where mandated by State fertilizer regulation.

Riverdale and Lazer are Registered Trademarks of Nufarm Americas Inc.

IF IN EYES	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
HOT LINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-877-325-1840 for emergency medical treatment information.	

ENVIRONMENTAL HAZARDS

Drift or runoff may adversely affect nontarget plants. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

Most cases of groundwater contamination involving a phenoxy herbicide such as 2,4-D have been associated with mixing/loading and disposal sites. Caution should be exercised when handling this phenoxy pesticide at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing or transferring this pesticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **READ ENTIRE LABEL BEFORE USING THIS PRODUCT. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.**

This product is a stable mixture of three herbicides. It is for use on Ornamental Turf Lawns (Residential, Industrial and Institutional), Parks, Cemeteries, Athletic Fields and Golf Courses (Fairways, Aprons, Tees and Roughs) and similar turf areas.

This product may be used on Bahia, common Bermuda, Blue Grass, Centipede, Fescue, Rye, St. Augustine, and Zoysia grass. **DO NOT USE** on Dichondra and Carpet grass. **DO NOT USE** this product where desirable clovers are present or allow the product to "wind drift" onto flowers, vegetables, ornamentals, shrubs, trees or other desirable plants.

This product is designed to promote lush green growth in lawns and control many broadleaf weeds such as:

Subject: Riverdale ® Lazer ® Weed and Feed X-X-X – Formula Five
EPA REG. No. 228-428
Label Notification per PR 98-10

Dear Ms. Hobgood:

Nufarm Americas, Inc would like to add optional language to allow for a different bag size. The language is consistent with PRN98-10 section II (Labeling notifications) part E (changes in packaging and related labeling statements) and section IV (Non-notifications) part B (Changes in packaging size and net contents).

If you should have any questions regarding this matter, please feel free to contact me at (630) 455-2048 or matthewgranahan@us.nufarm.com or contact George Meindl at (630) 455-2017 or e-mail at george.meindl@us.nufarm.com.

Sincerely,

A handwritten signature in black ink, appearing to read 'Matthew P. Granahan'.
