

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
 Registration Division (7505P)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460

NOTICE OF PESTICIDE:
 Registration
 Reregistration

(under FIFRA, as amended)

EPA Reg. Number:

228-453

Date of Issuance:

13 FEB 2008

Term of Issuance:

Name of Pesticide Product:

BATTLESHIP® 3
 SELECTIVE HERBICIDE

Name and Address of Registrant (include ZIP Code):

Ms. Jeannie Smith
 Nufarm Americas, Inc.
 150 Harvester Drive, Suite 200
 Burr Ridge, IL 60527

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is reregistered in accordance with FIFRA section 4(g)(2)(C) provided you agree in writing to:

1. To revise the label as follows:

A. Under the "PRECAUTIONARY STATEMENTS" and under "DANGER - PELIGRO", remove the entire first paragraph starting with "Corrosive. Causes irreversible eye, etc.", and replace it with the paragraph "CORROSIVE. CAUSES IRREVERSIBLE EYE DAMAGE. Harmful if swallowed. Harmful if absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin."

Signature of Approving Official:

Joanne I. Miller

Joanne I. Miller, Product Manager (23)
 Herbicide Branch, Registration Division (7505P)

Date:

13 FEB 2008

B. Under the last sentence, of the first paragraph, under PRECAUTIONARY STATEMENTS", add the section with the heading "PERSONAL PROTECTIVE EQUIPMENT (PPE)", then add the statements "Mixers, loaders, applicators, other handlers, supporting any type of application to non-crop lands must wear:

- Long-sleeved shirt and long pants
- Protective eyewear (goggles or face shield)
- Chemical-resistant gloves (such as or made of any water-proof material)
- Shoes plus socks

See ENGINEERING CONTROLS for additional requirements."

C. After "'PERSONAL PROTECTIVE EQUIPMENT (PPE)", add "ENGINEERING CONTROLS", and the sentence, "Pilots must use an enclosed cockpit that meets the requirements listed in the WPS for agricultural pesticides [40CFR170.240(d)(6)]."

D. Under "WPS SOD FARM USES", add "exist" after "washables".

E. Under "USER SAFETY RECOMMENDATIONS", present the last three bullets as one, so it reads, "- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing."

F. In the "FIRST AID" box, after "NOTE TO PHYSICIAN"; The label should contain a "Note to Physician" which addresses the primary eye irritation Toxicity Category I. The following statements are some suggested types of information that could be included, if applicable, in the "Note to Physicians:"

- technical information on symptomatology
- use of supportive treatments to maintain life functions
- medicine that will counteract the specific physiological effects of the pesticide
- company telephone number to specific medical personnel who can provide specialized medical advice.

G. Under the "ENVIRONMENTAL HAZARDS" statement, add the statement "Do not contaminate water when disposing of equipment washwater or rinsate." to the beginning of the third paragraph. In the second sentence "This product may be toxic, etc." is not required, and can be deleted.

H. In the "NON-AGRICULTURAL USE REQUIREMENTS" box change the last two sentences to "Do not enter or allow people (other than applicator) or pets on treatment area during application. Do not enter or allow others to enter the treated area until sprays have dried."

I. Add a "SPRAY DRIFT MANAGEMENT" section with the following requirements: "Avoiding spray drift at the application site is the responsibility of the applicator. The interaction of many equipment-and-weather-related factors determine the potential for spray drift. The applicator and the grower are responsible for considering all these factors when making decisions.

Apply only as a medium or coarser spray (ASAE standard 572) or a volume mean diameter of 300 microns or greater for spinning atomizer nozzles.

Apply only when the wind speed is 2-10 mph at the application site.

Additional requirements for aerial applications:

The boom length must not exceed 75% of the wingspan or 90% of the rotor blade diameter. Release spray at the lowest height consistent with efficacy and flight safety. Do not release spray at a height greater than 10 feet above the crop canopy.

When applications are made with a crosswind, the swath will be displaced downwind. The applicator must compensate for this displacement at the downwind edge of the application area by adjusting the path of the aircraft upwind.

Do not make applications into temperature inversions.

Additional requirements for ground boom application:

Do not apply with a nozzle height greater than 4 feet above the crop canopy."

J. Under "TURF APPLICATION DIRECTIONS", change "... do not apply more than 1.5 lb ae/acre per year." to "... do not apply more than 4.2 pints of product (1.5 lbs total ae)/acre/year." Also, change "Do not apply more than 2 broadcast applications per year, etc", to "Do not apply more than 2 applications per year, etc."

K. Under the "WARRANTY DISCLAIMER" and "LIMITATION OF LIABILITY", for consistency, change all "TO THE EXTENT PERMITTED BY LAW" phrases to "TO THE EXTENT CONSISTENT WITH APPLICABLE LAW".

Under "WARRANTY DISCLAIMER", delete the third sentence starting with "TO THE EXTENT PERMITTED BY LAW, MANUFACTURER AND SELLER MAKE NO WARRANTIES, GUARANTEES, OR REPRESENTATIONS, etc.". This is an overly broad statement which negates or detracts from the Directions For Use.

In the sentence starting with "UNINTENDED CONSEQUENCES, etc." add the phrase, ", BEYOND WHAT IS EXPRESSLY WARRANTED BY THIS LABEL, IS ASSUMED, etc." after the "AND" following "... BEYOND THE CONTROL OF MANUFACTURER OR SELLER ...".

2. Submit one (1) copy of final printed labeling incorporating the above changes before you release the product for shipment. Amended labeling will supersede all previously accepted ones. A stamped copy of labeling is enclosed for your records.

For any assistance with this matter, please contact Phil Errico at 703-305-6663, or email at Errico.Philip@epa.gov.

Regards,

Joanne I. Miller

BATTLESHIP³ SELECTIVE HERBICIDE

FOR THE CONTROL OF ANNUAL AND PERENNIAL
BROADLEAF WEEDS IN ORNAMENTAL TURF INCLUDING SOD FARMS

CONTAINS MCPA, FLUROXYPYR, AND TRICLOPYR

CONTROLS: Dandelion, Chickweed, Black medic, Knotweed, Plantain, Oxalis, Clover, Cocklebur, Thistle
and many other species of broadleaf weeds; some of which are listed on this label.

ACTIVE INGREDIENTS:

Dimethylamine Salt of 2-Methyl-4-Chlorophenoxyacetic Acid*	37.84%
1-Methylheptyl Ester of Fluroxypyr:((4-amino-3-5-dichloro-6-fluoro- 2-pyridinyl)oxy)acetic Acid, 1-methylheptyl ester**	4.45%
Triethylamine Salt of 3,5,6-Trichloro-2-Pyridinyloxyacetic Acid***	4.07%

OTHER INGREDIENTS:	53.64%
TOTAL	100.00%

By Isomer Specific AOAC Method, Equivalent to:

*2-Methyl-4-Chlorophenoxyacetic Acid	30.90%, 2.85 lbs./gal.
**((4-amino-3-5-dichloro-6-fluoro-2-pyridinyl)oxy)acetic Acid	3.09%, 0.29 lbs./gal.
***3,5,6-Trichloro-2-Pyridinyloxyacetic Acid	2.92%, 0.27 lbs./gal.

Intended For Use By Professional Turf Maintenance Personnel,
Landscaping or Commercial Applicators Only.

DO NOT SELL, DISTRIBUTE OR USE THE PRODUCT IN NASSAU AND SUFFOLK COUNTY IN NEW YORK.

**KEEP OUT OF REACH OF CHILDREN
DANGER - PELIGRO**

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.
(If you do not understand the label, find someone to explain it to you in detail.)

**ACCEPTED
with COMMENTS
In EPA Letter Dated
13 FEB 2008**

**Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.
228-453**

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER - PELIGRO**

Corrosive. Causes irreversible eye damage. Harmful if swallowed, or absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

NON-WPS TURF USE: Applicators and other handlers who handle this pesticide for any use NOT covered by the Worker Protection Standard (40 CFR Part 170)-in general only agricultural plant uses are covered by the WPS-must wear eye protection (goggles, face shield, or safety glasses) when using this product. It is recommended that safety glasses include front, brow, and temple protection.

WPS SOD FARM USES: Applicators and other handlers who handle this pesticide for any use covered by the Worker Protection Standard (40 CFR Part 170)-in general, agricultural plant uses are covered-must wear: Long-sleeved shirt and long pants, waterproof gloves, shoes plus socks, and protective eyewear. Discard clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them. Follow manufacturer's instructions for cleaning/maintaining Personal Protective Equipment (PPE). If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

Engineering Controls Statement: If the mechanical system is used in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240(d)(4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

USER SAFETY RECOMMENDATIONS	
Users Should:	
<ul style="list-style-type: none"> • Wash hands, face and arms with soap and water before eating, smoking, drinking, or using the toilet. • Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. • Remove PPE immediately after handling this product. • Wash the outside of gloves before removing. • As soon as possible, wash thoroughly and change into clean clothing. 	

FIRST AID	
IF IN EYES	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
IF SWALLOWED	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.
IF ON SKIN. OR CLOTHING	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15 to 20 minutes. • Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-877-325-1840 for emergency medical treatment information.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate use of gastric lavage.

ENVIRONMENTAL HAZARDS

Drift or runoff may adversely affect non-target plants and may be hazardous to aquatic organisms in water adjacent to treated areas. This product may be toxic to fish, aquatic invertebrates and aquatic plants. Runoff of this product will be reduced by avoiding applications when rainfall is forecasted to occur within 48 hours. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark.

MCPA has properties and characteristics associated with chemicals detected in groundwater. The use of this product in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollution Discharge Elimination (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **READ ENTIRE LABEL BEFORE USING**

THIS PRODUCT. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

This product should be used strictly in accordance with the drift and runoff precautions on this label in order to minimize off-site exposure.

Under some conditions, this product may have a potential to runoff to surface water or adjacent land. Where possible, use methods which reduce soil erosion, such as no-till, limited till and contour plowing; these methods also reduce pesticide runoff. Where feasible, use application techniques such as T-banding, and in-furrow techniques which incorporate the pesticide into the soil. Use of vegetaion filter strips is recommended along rivers, creeks, streams, wetlands, etc. or on the downhill side of fields where runoff could occur to minimize water runoff.

Low humidity and high temperatures increase the evaporation rate of spray droplets and therefore the likelihood of increased spray drift. Avoid spraying during conditions of low humidity and for high temperatures.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about Personal Protective Equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 48 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is: Coveralls, waterproof gloves, shoes plus socks, and protective eyewear.

NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses.

Do not allow people (other than applicator) or pets on treatment area during application Do not enter treatment areas until spray has dried.

This product is a broad-spectrum herbicide for control of actively growing annual and perennial broadleaf weeds. It is for use on established Ornamental Turf Lawns (Residential, Industrial and Institutional), Parks, Cemeteries, Athletic Fields, Roadsides and Golf Courses (Fairways, Aprons and Roughs) and similar turf areas; also for use on sod farms. Do not use on Golf Greens or Tees. This product may be applied to the following established turfgrass species:

ESTABLISHED COOL SEASON TURFGRASSES		ESTABLISHED WARM SEASON TURFGRASSES†	
Common Name	Scientific Name	Common Name	Scientific Name
Bentgrass	<i>Agrostis species</i>	Bahiagrass	<i>Paspalum notatum</i>
Bluegrass, Kentucky	<i>Poa pratensis</i>	Bermudagrass	<i>Cynodon dactylon</i>
Fescue, chewing	<i>Festuca rubravar, commutata</i>	Buffalograss	<i>Buchloe dactyloides</i>
Fescue, creeping red	<i>Festuca rubra</i>	Centipedegrass	<i>Eremochloa ophiuroides</i>
Fescue, sheeps	<i>Festuca ovina</i>	Zoysiagrass	<i>Zoysia japonica</i>
Fescue, tall	<i>Festuca arundinaceae</i>	Zoysiagrass	<i>Zoysia tenuifolia</i>
Ryegrass, perennial	<i>Lolium perenne</i>	Fescue, tall (growing in warm season areas)	<i>Festuca arundinacea</i>

†Do not treat warm season turfgrass with this product when mowing height is less than 1/2 inch.

Note: This product may discolor and/or stunt turf that is not well-established or is stressed or weakened due to unfavorable climatic conditions, temperature extremes, drought, nematodes, or other factors which damage or weaken turf. Apply this product only to healthy, well-established turf that has a well-anchored root system. Do not apply this product to grass species not listed on this label unless potential turf injury can be tolerated.

USE PRECAUTIONS

Do not apply this product directly to, or otherwise permit drift or spray mist to come into contact with cotton, citrus, grapes, tobacco, vegetables, flowers, ornamental plants, shrubs, trees, and other desirable plants. Do not pour spray solutions near desirable plants. Avoid fine mists. Use lawn type sprayer with coarse spray as wind drift is less likely. Spray drift can be reduced by spraying when wind velocity is low, keeping spray boom as low as possible, using nozzles that deliver larger spray droplets and minimize the production of fine spray particles, and by using higher spray volumes and lower pressures. Applications should be made only when hazards from spray drift are at a minimum. Very small quantities of spray, which may not be visible, may seriously injure susceptible

plants. Do not spray when wind is blowing toward susceptible crops or ornamental plants near enough to be injured. Do not apply to exposed roots of shallow rooted trees and shrubs. Maximum kill of weeds will be obtained from spring or early fall applications when weeds are actively growing. Do not apply more than 4 pints per acre per application. Mow newly seeded turf at least twice before treatment with this product.

For optimum results: (1) Add a spray adjuvant, such as DYNE-AMIC for best results; (2) Use a water conditioning agent, such as, QUEST for high PH and water hardness; (3) Avoid applying during excessively dry or hot periods unless irrigation is used; (4) Turf should not be mowed 1 to 2 days before and following application; (5) Reseed no sooner than 3 to 4 weeks after application of this product.

WEEDS CONTROLLED

This product is designed to control many broadleaf weeds such as:

- | | | | |
|----------------------------|-------------------|----------------------|-----------------------|
| Alder | Corn Chamomile | Kochia | Red sorrel |
| Annual yellow sweet clover | Creeping jenny | Knawel | Redstem filaree |
| Artichoke | Crimson clover | Knotweed | Rough cinquefoil |
| Aster | Croton | Lambsquarter | Rough fleabane |
| Austrian fieldcress | Cudweed | Lespedeza | Roundleafed marigold |
| Bedstraw | Curly dock | Locoweed | Rush |
| Beggartick | Curly indigo | Lupine | Russian pigweed |
| Biden | Dandelion | Mallow | Russian thistle |
| Bindweed | Dead nettle | Marshelder | St. Johnswort |
| Bird vetch | Dock | Matchweed | Scarlet pimpernel |
| Bitterweed | Dogbane | Mexicanweed | Scotch thistle |
| Bitter wintercress | Dogfennel | Milk vetch | Sheep sorrel |
| Black-eyed Susan | Elderberry | Milkweed bloodflower | Shepherdspurse |
| Black medic | English daisy | Mugwort | Slender plantain |
| Black mustard | Fall dandelion | Morningglory | Smallflower galinsoga |
| Black-seed plantain | False dandelion | Mouseear chickweed | Smartweed |
| Blessed thistle | False flax | Musk thistle | Smooth dock |
| Blue lettuce | False sunflower | Mustard | Smooth pigweed |
| Blue vervain | Fiddleneck | Narrowleaf plantain | Sneezeweed |
| Box elder | Field bindweed | Narrowleaf vetch | Southern wild rose |
| Bracted plantain | Field pansy | Nettle | Sowthistle |
| Brassbuttons | Flea bane (daisy) | Orange hawkweed | Spanishneedle |
| Bristly oxtongue | Flixweed | Oxalis | Spatterdock |
| Broadleaf dock | Florida betony | Oxeye daisy | Speedwell |
| Broadleaf plantain | Florida pusley | Parsley-piert | Spiny Amaranth |
| Broomweed | Frenchweed | Parsnip | Spiny cocklebur |
| Buckhorn | Galinsoga | Pearlwort | Spotted catsear |
| Buckhorn plantain | Garlic mustard | Pennycress | Spotted knapweed |
| Bulbous buttercup | Goathead | Pennywort | Spotted spurge |
| Bull nettle | Goatsbeard | Peppergrass | Spurge |
| Bull thistle | Goldenrod | Pepperweed | Spurweed |
| Burdock | Ground ivy | Pigweed | Stinging nettle |
| Burning nettle | Gumweed | Pineywoods bedstraw | Stinkweed |
| Bur ragweed | Hairy bittercress | Plains coreopsis | Stitchwort |
| Burweed | Hairy fleabane | Plantain | Strawberry clover |
| Buttercup | Hawkweed | Poison hemlock | Sumac |
| Canada thistle | Healall | Poison ivy | Sunflower |
| Carolina geranium | Heartleaf drymary | Poison oak | Sweet clover |
| Carpetweed | Hedge bindweed | Pokeweed | Tall nettle |
| Catchweed bedstraw | Hedge mustard | Poorjoe | Tall vervain |
| Catsear | Hemp | Povertyweed | Tansy mustard |
| Catnip | Henbit | Prickly lettuce | Tansy ragwort |
| Chickweed | Hoary cress | Prickly sida | Tanweed |
| Chicory | Hoary plantain | Primrose | Tarweed |
| Cinquefoil | Hoary vervain | Prostrate knotweed | Thistle |
| Clover | Honeysuckle | Prostrate pigweed | Tick trefoil |
| Cockle | Hop clover | Prostrate spurge | Toadflax |
| Cocklebur | Horsenettle | Prostrate vervain | Trailing Crownvetch |
| Coffeebean | Horsetail | Puncture vine | Tumble mustard |
| Coffeeweed | Indiana mallow | Purslane | Tumble pigweed |
| Common chickweed | Ironweed | Ragweed | Tumbleweed |
| Common mullein | Jewelweed | Red clover | (continued) |
| Common sowthistle | Jimsonweed | Redroot pigweed | |

Velvet leaf	Western salsify	Wild lettuce	Witchweed
Venice mallow	White clover	Wild marigold	Woolly morningglory
Veronica	White mustard	Wild onion	Woodsorrel
Vervain	Wild mustard	Wild parsnip	Woolly croton
Vetch	Wild aster	Wild radish	Woolly plantain
Virginia buttonweed	Wild buckwheat	Wild rape	Wormseed
Virginia creeper	Wild carrot	Wild strawberry	Yarrow
Virginia pepperweed	Wild four-o'clock	Wild sweet potato	Yellow rocket
Wavyleaf bullthistle	Wild garlic	Wild vetch	Yellowflower pepperweed and other broadleaf weeds.
Western clematis	Wild geranium	Willow	

After applying this product, many broadleaf weeds will begin to show visible signs of leaf curl within a few days. Some hard-to-control broadleaf weeds may require a second broadcast treatment in 3 to 4 weeks.

RECOMMENDED MIXING INSTRUCTIONS

Fill spray tank with water. Start agitation and slowly add the recommended amount of concentrate. Maintain continuous agitation after mixing and during application. If this product is allowed to stand in tank for extended periods of time, some separation may occur. Reagitate before use.

TURF APPLICATION DIRECTIONS

For residential turf, golf course, sod farm and grass grown for seed uses, do not apply more than 1.5 lb ae/acre per year. Do not apply more than 2 broadcast applications per year with a minimum retreatment interval of 21 days.

Apply 3 to 4 pints of this product per acre (1.1 to 1.5 ozs./1,000 sq.ft.) to control above listed broadleaf weeds.

The maximum use rate for most warm season grasses is 3 pints per acre.

Make application using equipment that will ensure uniform coverage (see specific application directions below). Foliar sprays should be applied during warm weather when weeds are actively growing. Application under drought conditions may provide less than desirable results. When hard-to-control species are prevalent, when applications are made in late summer, when weeds are mature, or during drought conditions, use the higher rates.

On closely mowed golf course fairway bentgrass, apply this product at a maximum rate of 2 pints in 20 to 240 gallons of water per acre (0.73 fluid ounces in 0.5 to 5.5 gallons of water per 1,000 square feet). During conditions which promote turf stress use lower rates, 1 to 1.5 pints in 20 to 240 gallons of water per acre (0.36 to 0.55 fluid ounces in 0.3 to 5.5 gallons per 1,000 square feet). Slight turf yellowing will disappear after one week. To minimize grass injury, a second application should not be made for at least 4 weeks. Avoid swath overlaps. Do not use on golf course greens or tees.

Note: Broadleaf weeds germinate at different times of the year. Only emerged weeds present at the time of application will be controlled by this product.

Standard Volume Broadcast Applications: Apply 3 to 4 pints of this product in enough water to deliver 20 to 200 gallons of total spray mix per acre (0.5 to 5 gallons spray per 1,000 square feet). Higher application volumes may be used when this product is tank mixed with liquid fertilizers.

Low Volume Broadcast Applications: Apply 3 to 4 pints of this product in enough water to deliver from 5 to 40 gallons of total spray mixture per acre. Use low pressures and application equipment capable of delivering a uniform droplet size that can wet the weed leaf surface.

Targeted Zone Applications or Spot Treatment Using Portable Sprayers: Mix 0.5 to 1.0 ounce of this product in enough water to make one gallon of spray and apply at any time broadleaf weeds are actively growing. Target plants should be sprayed to wet but not beyond point of runoff.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Always store pesticides in a secured warehouse or storage building. Store at temperatures above 25°F. Protect from freezing. If allowed to freeze, remix well before using. Freezing does not alter the product. Containers should be opened in well-ventilated areas. Keep container tightly sealed when not in use. Do not stack cardboard cases more than two pallets high. Do not store near open containers of fertilizer, seed or other pesticides.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. If container is damaged or if pesticide has leaked, contain all spillage. Absorb and clean up all spilled material with granules or sand. Place in a closed, labeled container for proper disposal. Improper disposal of excess pesticide, spray mixtures, or rinsate is a violation of Federal law and may contaminate groundwater. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL FOR NON-REFILLABLE CONTAINERS: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities. Plastic containers are also disposable by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

CONTAINER DISPOSAL FOR REFILLABLE CONTAINERS: Close all openings which have been opened during use and replace all caps. Contact Nufarm Customer Service at 1-800-345-3330, to arrange for return of the empty refillable container.

WARRANTY DISCLAIMER

The directions for use of this product must be followed carefully. THE GOODS DELIVERED TO YOU ARE FURNISHED "AS IS" BY MANUFACTURER OR SELLER. TO THE EXTENT PERMITTED BY LAW, MANUFACTURER AND SELLER MAKE NO WARRANTIES, GUARANTEES, OR REPRESENTATIONS OF ANY KIND TO BUYER OR USER, EITHER EXPRESS OR IMPLIED, OR BY USAGE OF TRADE, STATUTORY OR OTHERWISE, WITH REGARD TO THE PRODUCT SOLD, INCLUDING, BUT NOT LIMITED TO MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, USE, OR ELIGIBILITY OF THE PRODUCT FOR ANY PARTICULAR TRADE USAGE. UNINTENDED CONSEQUENCES, INCLUDING BUT NOT LIMITED TO CROP INJURY OR INEFFECTIVENESS, MAY RESULT BECAUSE OF SUCH FACTORS AS THE PRESENCE OR ABSENCE OF OTHER MATERIALS USED IN COMBINATION WITH THE GOODS, OR THE MANNER OF USE OR APPLICATION, INCLUDING WEATHER, ALL OF WHICH ARE BEYOND THE CONTROL OF MANUFACTURER OR SELLER AND ASSUMED BY BUYER OR USER. THIS WRITING CONTAINS ALL OF THE REPRESENTATIONS AND AGREEMENTS BETWEEN BUYER, MANUFACTURER AND SELLER, AND NO PERSON OR AGENT OF MANUFACTURER OR SELLER HAS ANY AUTHORITY TO MAKE ANY REPRESENTATION OR WARRANTY OR AGREEMENT RELATING IN ANY WAY TO THESE GOODS.

LIMITATION OF LIABILITY

TO THE EXTENT PERMITTED BY LAW, IN NO EVENT SHALL MANUFACTURER OR SELLER BE LIABLE FOR SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, OR FOR DAMAGES IN THEIR NATURE OF PENALTIES RELATING TO THE GOODS SOLD, INCLUDING USE, APPLICATION, HANDLING, AND DISPOSAL. MANUFACTURER OR SELLER SHALL NOT BE LIABLE TO BUYER OR USER BY WAY OF INDEMNIFICATION TO BUYER OR TO CUSTOMERS OF BUYER, IF ANY, OR FOR ANY DAMAGES OR SUMS OF MONEY, CLAIMS OR DEMANDS WHATSOEVER, RESULTING FROM OR BY REASON OF, OR ARISING OUT OF THE MISUSE, OR FAILURE TO FOLLOW LABEL WARNINGS OR INSTRUCTIONS FOR USE, OF THE GOODS SOLD BY MANUFACTURER OR SELLER TO BUYER. BUYER'S OR USER'S EXCLUSIVE REMEDY, AND MANUFACTURER'S OR SELLER'S TOTAL LIABILITY SHALL BE FOR DAMAGES NOT EXCEEDING THE COST OF THE PRODUCT. ALL SUCH RISKS SHALL BE ASSUMED BY THE BUYER, USER, OR ITS CUSTOMERS.

If you do not agree with or do not accept any of directions for use, the warranty disclaimers, or limitations on liability, do not use the product, and return it unopened to the Seller, and the purchase price will be refunded.
